Quality Caring in Nursing and Health

Systems Joanne R. Duffy, PhD, RN, FAAN

2022-12-22 Praise for Previous Editions: "I

enjoyed the book. It was well written, current and timely with changes in the healthcare system. The reflective questions and practice analysis were great and would be wonderful to use with students at the graduate and undergraduate levels."

-Doody's Medical Reviews Freshly updated, this acclaimed text demonstrates how nurses can promote caring relationships with individuals, groups, and communities in various health care settings to ensure better patient outcomes, lower costs, and greater clinician well-being. The book is grounded in the author's Quality Caring Model®, a middle range theory that analyzes relationships among the self, the community, patients and families, and the health care team. It expands upon the concept of self-caring and examines current thinking on employee work engagement and creating value. Interviews with practicing nurses who describe current healthcare challenges and strategies for managing them also enrich the text. Written for nursing students, clinicians, educators, and leaders, the book delves into the intricacies of relational healthcare and imparts strategies to ameliorate the ills of our current health system by focusing on nursing care that advances equity, pursues innovative and advanced educational experiences, leads, and engages in practice across multiple settings. Chapters apply the model to patients and families and provide optimal learning strategies to

facilitate quality-caring competencies. Woven throughout the text are case studies, interviews, exemplars, and relevant lessons to put theory into practice. An Instructor's Manual includes a crosswalk of QCM concepts, core competencies, and performance standards; student assignments, reflections, and value exercises; and PowerPoints. New to the Fourth Edition: Instructor resources and power point slides Updates to address latest recommendations from NAM's The Future of Nursing 2020-2030, ANA's 2021 Nursing Scope and Standards of Practice, AACN's 2021 The Essentials, and AACN's 2021 Entry-to-Practice Nurse Residency Program Standards Expanded content on the challenges of self-caring with practical guidance for preventing moral injury Examples of caring behaviors in action Current thinking on employee work engagement and creating value Interviews with practicing nurses reflecting challenges and strategies for dealing with current state of healthcare Updated information on resiliency, long-term career planning, and work engagement Revised educational and leadership strategies to address the post pandemic health system Key Features: Examines in depth the evolution, key concepts, and clinical, educational, and leadership applications of the Quality Caring Model Underscores the significance of caring relationships in improving the safety and quality of healthcare systems Delivers comprehensive, concise, evidence-based content throughout Offers practical insights with real-life case studies and interviews in diverse community and academic

settings Includes memorable quotes, learning objectives, boxed calls to action, key summary points, reflective exercises, and Practice Analysis supporting an active, learner-centered approach

Doing Dialectical Behavior Therapy Kelly Koerner 2012-02-01 Filled with vivid clinical vignettes and step-by-step descriptions, this book demonstrates the nuts and bolts of dialectical behavior therapy (DBT). DBT is expressly designed for--and shown to be effective with--clients with serious, multiple problems and a history of treatment failure. The book provides an accessible introduction to DBT while enabling therapists of any orientation to integrate elements of this evidence-based approach into their work with emotionally dysregulated clients.

Experienced DBT clinician and trainer Kelly Koerner clearly explains how to formulate individual cases; prioritize treatment goals; and implement a skillfully orchestrated blend of behavioral change strategies, validation strategies, and dialectical strategies. See also *Dialectical Behavior Therapy in Clinical Practice, Second Edition: Applications across Disorders and Settings*, edited by Linda A. Dimeff, Shireen L. Rizvi, and Kelly Koerner, which presents exemplary DBT programs for specific clinical problems and populations.

Denying to the Grave Sara E. Gorman 2021 "This chapter addresses the complicated topic of conspiracy theories. This topic is complicated because a conspiracy theory is not prima facie wrong. Yet one of the hallmarks of false scientific beliefs is the claim by their adherents that they are the victims of profiteering, deceit, and cover-ups by conglomerates variously composed of large corporations, government regulatory agencies, the media, and professional medical societies. The trick is to figure out if the false ones can be readily separated from those in which there may be some truth. Only by carefully analyzing a number of such conspiracy theories and their adherents does it become possible to offer some guidelines as to which are most obviously incorrect. The chapter then studies the psychology of conspiracy theory adherence. It argues that belittling people who come to believe in false conspiracy theories as ignorant or mean-spirited is

perhaps the surest route to reinforcing an anti-science position"--

Overcoming Addiction Elizabeth A. Shartle 2018-04-02 Opening a book about addiction can be scary, whether you have an addiction yourself or love someone else who does. Certain things are hard to hear. This is not the guilt-filled lecture though. This is more like a letter from a friend,

someone you love who wants to lead you to freedom and joy. You will be able to read this book over and over again, like any good letter you cherish. Every year, more than 70 million people of the Christian faith are said to be dealing with addiction in some form or another. You are not alone. You may have faith to move mountains, yet find yourself caught in addiction. You may have lost faith. Or, you may just need encouragement. *Overcoming Addiction* will introduce you to good reasons to do good things for yourself and others. The biblical path towards freedom leaves addiction in the past as your future unfolds in wonder and in joy. When you put the book down, you will know, "With the Lord's help, I can do this."

The Coddling of the American Mind Greg Lukianoff 2019-08-20 New York Times Bestseller • Finalist for the 2018 National Book Critics Circle Award in Nonfiction • A New York Times Notable Book • Bloomberg Best Book of 2018 "Their distinctive contribution to the higher-education debate is to meet safetyism on its own, psychological turf . . . Lukianoff and Haidt tell us that safetyism undermines the freedom of inquiry and speech that are indispensable to universities." —Jonathan Marks, Commentary "The remedies the book outlines should be considered on college campuses, among parents of current and future students, and by anyone longing for a more sane society." —Pittsburgh Post-Gazette Something has been going wrong on many college campuses in the last few years. Speakers are shouted down. Students and professors say they are walking on eggshells and are afraid to speak honestly. Rates of anxiety, depression, and suicide are rising—on campus as well as nationally. How did this happen? First Amendment expert Greg Lukianoff and social psychologist Jonathan Haidt show how the new problems on campus have their origins in three terrible ideas that have become increasingly woven into American childhood and education: What doesn't kill you makes you weaker; always trust your feelings; and life is a battle between good people and evil people. These three Great Untruths contradict basic psychological principles about well-being and ancient wisdom from many cultures. Embracing these untruths—and the

resulting culture of safetyism—interferes with young people's social, emotional, and intellectual development. It makes it harder for them to become autonomous adults who are able to navigate the bumpy road of life. Lukianoff and Haidt investigate the many social trends that have intersected to promote the spread of these untruths. They explore changes in childhood such as the rise of fearful parenting, the decline of unsupervised, child-directed play, and the new world of social media that has engulfed teenagers in the last decade. They examine changes on campus, including the corporatization of universities and the emergence of new ideas about identity and justice. They situate the conflicts on campus within the context of America's rapidly rising political polarization and dysfunction. This is a book for anyone who is confused by what is happening on college campuses today, or has children, or is concerned about the growing inability of Americans to live, work, and cooperate across party lines.

Relationships - E-Book Claire Mallette

2021-11-15 Engaging, comprehensive coverage presents the most current issues and communication concepts. Fully adapted content reflects Canada's unique health care context and cultural landscape. Canadian statistics, research, references and resources, guidelines, assessment and screening tools, and more are incorporated throughout the text. Canadian cultural and demographic considerations address issues related to race/ethnicity, Indigenous peoples, gender identity, LGBTQ2 community, family composition, recent immigrants, refugees, and vulnerable persons. Engaging with Humility: Authentic Interpersonal Communication in Partnership with Indigenous Peoples chapter increases awareness and knowledge of the impact of colonization on Indigenous peoples, in order to understand and develop practices which respectfully engage in cultural safety and humility through holistic communication with Indigenous peoples and communities. Rich art programme reflects Canada's cultural diversity in the health care setting. Emphasis on collaborative communication includes related evidence-

informed case studies and analysis. Socio-cultural communication competencies coverage discusses how to reduce health disparities and increase health literacy. Questions for Review and Discussion help students practise their reflective analysis skills and provide opportunities for thoughtful review of chapter content. Content on social media and transitional care delivery reflects current practice standards. Simulation exercises enable students to practise, observe, and critically evaluate their professional communication skills in a safe learning environment. Case examples help students learn to develop empathy for patients' perspectives and needs. Discussion of spirituality and end-of-life needs focuses on trust, empathy, and the nurse-patient relationship — all central components of holistic nursing. Nursing, behavioural, developmental, family, and communication theories provide an essential foundation and a theoretical perspective for effective communication. Ethical Dilemma boxes with reflection questions at the end of each chapter help students absorb and retain key ethical content throughout the text. Evidence-Informed Nursing Practice boxes in each chapter offer a summary of research findings related to the chapter subject and are intended to strengthen awareness of the link between research and practice. Separate chapters on communication across the lifespan highlight crucial communication tools that are the first step in developing a culture of safety in contemporary health care delivery.

TIME TO BLOSSOM Anne Marie Frizzell 2015-11-12 We are all on a personal journey of discovery and each day is an opportunity to harvest wellness and wisdom, discover our inner truth and find meaning and purpose in our life. What most people do not recognise, is that they are perfectly whole and complete just as they are. In the pursuit of what they perceive would be a better life, they fail to recognise that wellness and happiness is already within their reach. The foundation for wellness and happiness is built by reclaiming your personal power, drawing wisdom from your life experiences and recognising and fulfilling your divine life purpose. This book highlights important lessons that can be drawn from each stage of your life journey, and identifies how these can support the foundation for personal wellness and wisdom. This is your Time to Blossom, so enjoy the journey, and live it well!

Integrating Behavioral Health and Primary Care Dr. Robert Feinstein 2017-04-13 Integrated care incorporates behavioral and physical health services into primary care and specialty medical environments. Integrated care models are patient-centered; delivered by teams of medical professionals, utilize care coordination, and a population-based approach. This book is practical, office-based, and comfortably accessible to

students, residents, faculty, and all mental health professionals, primary care and medical specialists. We examine and recommend applying collaborative care and other existing models of integrated care based on existing literature. When there is no literature supporting a specific approach, our experts offer their ideas and take an aspirational approach about how to manage and treat specific behavioral disorder or problems. We assume the use of integrated team staffing including a primary care or specialist provider(s), front desk staff, medical assistant(s), nurse(s), nurse practitioners, behavioral health specialist(s), health coaches, consulting psychiatrist, and care coordinator(s)/manager(s).

Workbook for Health Insurance Today Janet I. Beik 2014-09-18 Corresponding to the chapters in *Health Insurance Today*, 5th Edition, this workbook gives you practice with the skills you will need to succeed as a health insurance professional. Practical assignments reinforce the information in the text, and engaging learning activities and exercises challenge you to apply your knowledge to real-world situations. Performance objectives include hands-on, application-based learning activities with practice in areas such as completing claim forms, posting payments to a patient's ledger, filling out "Release to Return to Work" forms, and filling out Medicare appeals. Critical thinking activities strengthen your ability to apply health insurance concepts to a variety of challenging situations. Defining Chapter Terms activities help you review and understand key terms in each chapter. Chapter assessments test your knowledge of text content with multiple choice, true/false, short answer, fill-in-the-blank, and matching questions. Problem solving/collaborative (group) activities emphasize the importance of teamwork in the health care field. Case studies ask you to solve a real-world problem related to health insurance, such as completing a CMS-1500 claim form or explaining how HIPAA could affect someone recently out of work. Application exercises ask you to apply your knowledge and skills to real-world situations. In-class projects and discussion topics enhance your understanding of specific content from the text. Internet Exploration exercises in each chapter

help you learn how to perform research online. NEW! Key coverage of new topics includes Medicare, Electronic Health Records, and Version 5010. UPDATED! Additional ICD-10 coding content prepares you for the upcoming switch to the new coding system in October 2015. NEW! Content on Patient Protection and Affordable Care Act ensures you stay current on these significant healthcare system changes.

Sharing This Walk Karina Biondi 2016-10-12 The Primeiro Comando do Capital (PCC) is a Sao Paulo prison gang that since the 1990s has expanded into the most powerful criminal network in Brazil. Karina Biondi's rich ethnography of the PCC is uniquely informed by her insider-outsider status. Prior to his acquittal, Biondi's husband was incarcerated in a PCC-dominated prison for several years. During the period of Biondi's intense and intimate visits with her husband and her extensive fieldwork in prisons and on the streets of Sao Paulo, the PCC effectively controlled more than 90 percent of Sao Paulo's 147 prison facilities. Available for the first time in English, Biondi's riveting portrait of the PCC illuminates how the organization operates inside and outside of prison, creatively elaborating on a decentered, non-hierarchical, and far-reaching command system. This system challenges both the police forces against which the PCC has declared war and the methods and analytic concepts traditionally employed by social scientists concerned with crime, incarceration, and policing. Biondi posits that the PCC embodies a "politics of transcendence," a group identity that is braided together with, but also autonomous from, its decentralized parts. Biondi also situates the PCC in relation to redemocratization and rampant socioeconomic inequality in Brazil, as well as to counter-state movements, crime, and punishment in the Americas.

Revelation prophesies the ultimate judgement of mankind in a series of allegorical visions, grisly images and numerological predictions. According to these, empires will fall, the "Beast" will be destroyed and Christ will rule a new Jerusalem. With an introduction by Will Self.

Health Professions Education Institute of Medicine 2003-07-01 The Institute of Medicine study *Crossing the Quality Chasm* (2001) recommended that an interdisciplinary summit be held to further reform of health professions education in order to enhance quality and patient safety. *Health Professions Education: A Bridge to Quality* is the follow up to that summit, held in June 2002, where 150 participants across disciplines and occupations developed ideas about how to integrate a core set of competencies into health professions education. These core competencies include patient-centered care, interdisciplinary teams, evidence-based practice, quality improvement, and informatics. This book recommends a mix of approaches to health education improvement, including those related to oversight processes, the training environment, research, public reporting, and leadership. Educators, administrators, and health professionals can use this book to help achieve an approach to education that better prepares clinicians to meet both the needs of patients and the requirements of a changing health care system.

The Starch Solution John McDougall 2013-06-04
 Pick up that bread! This doctor-approved method lets you keep the carbs and lose the pounds! "The Starch Solution is one of the most important books ever written on healthy eating."—John P. Mackey, co-CEO and director of Whole Foods Market, Inc. Fear of the almighty carb has taken over the diet industry for the past few decades—from Atkins to Dukan—even the mere mention of a starch-heavy food is enough to trigger an avalanche of shame and longing. But the truth is, carbs are not the enemy! Bestselling author John A. McDougall and his kitchen-savvy wife, Mary, prove that a starch-rich diet can actually help you attain your weight

loss goals, prevent a variety of ills, and even cure common diseases. By fueling your body primarily with carbohydrates rather than proteins and fats, you will feel satisfied, boost energy, and look and feel your best. Based on the latest scientific research, this easy-to-follow plan teaches you what to eat and what to avoid, how to make healthy swaps for your favorite foods, and smart choices when dining out. Including a 7-Day Sure-Start Plan, helpful weekly menu planner, and nearly 100 delicious, affordable recipes, *The Starch Solution* is a groundbreaking program that will help you shed pounds, improve your health, save money, and change your life.

ABC for the PCC 5th Edition John Pitchford 2010-07-15 This bestselling book has been fully revised and updated to take into account recent changes in canon law and secular law. The 5th Edition includes revisions to existing entries, and many new entries, such as data protection; the Alpha Course; the process of appointing Churchwardens and their legal duties; building regulations; the Pastoral Measure; Last Will and Testament, ... It also carries a new foreword by William Fittall, the Secretary General of the General Synod of the Church of England, a name that will resonate with PCC members. Since it was published in 1979, *An ABC for the PCC* has proved an invaluable source for parochial church councillors, churchwardens and clergy alike. It provides information and practical suggestions about the legal and spiritual duties and responsibilities of the PCC, with an emphasis on real partnership between clergy and laity.

Masterful Health and Wellness Coaching Michael Arloski 2021-08 In *Masterful Health & Wellness Coaching* Dr. Arloski focuses on advancing the reader's understanding of the process of coaching in the health and wellness setting and guides the reader to a comprehensive level of expertise. Honing the craft as wellness coaches is the goal. *Masterful Health & Wellness Coaching* offers tools to become a true master of

the history, research, scholarship, and techniques of wellness coaching at its highest level. Masterful Health & Wellness Coaching is divided into three parts, beginning with a foundation that great coaching is about transformation. Changing behavior needs to be viewed not through a unitary lens, but in the context of growth and development. Arloski reveals how this can be done for the client, for the coach, and for the growing profession of wellness coaching. The second part focuses on "How to Be", that is, a coaches presence and way of being in the world and with a client, and the powerful effect this has upon the coaching process. Part Three takes a deeper dive into the craft of wellness coaching. Throughout Dr. Arloski references what can be learned from relevant theory and research. Masterful Health & Wellness Coaching is tailored to coaches who want to go beyond the basics of "SMART Goals" and accountability, beyond tracking calories and sit-ups. It is for: - Coaches who want to become scholars of coaching. - Coaches who want to develop a greater understanding of the process of behavioral change. - Coaches who want to learn more about wellness. - Coaches who want to master what the entire field of health promotion has discovered about being well. - Coaches who want to become skilled craftspeople. - Coaches who want to meet their clients with understanding, empathy, and non-judgment. Dr. Arloski believes that coaching isn't about all the things a client is doing wrong and how grim their situation is. It's about what is needed to ensure a successful future. Masterful Health & Wellness Coaching gives you the tools to start your client on the path to success and to coach him or her until their healthy-living skills are second nature. The root of the word "coach" can be traced to a village in Hungary, Kocs, where carriages were made in the 1500's. Coaches love metaphors and what is better than this one: A "coach" takes you from where you are at to where you want to go. Perfect. The client is the one with the reins and it is the coaching process that facilitates the journey.

Cravings Chrissy Teigen 2016-02-23 Maybe she's on a photo shoot in Zanzibar. Maybe she's making people laugh on TV. But all Chrissy Teigen really wants to do is talk about dinner. Or breakfast. Lunch gets some love, too. For years, she's been collecting, cooking, and Instagramming her favorite recipes, and here they are: from breakfast all day to John's famous fried chicken with spicy honey butter to her mom's Thai classics. Salty, spicy, saucy, and fun as sin (that's the food, but that's Chrissy, too), these dishes are for family, for date night at home, for party time, and for a few life-sucks moments (salads). You'll learn the importance of chili peppers, the secret to cheesy-cheeseless eggs, and life tips like how to use bacon as a home fragrance, the single best way to wake up in the morning, and how not to overthink men or Brussels sprouts. Because for Chrissy Teigen, cooking, eating, life, and love are one and the same.

Introduction to Quality and Safety Education for Nurses

Diann Cameron Kelly, PhD, LMSW
 2014-03-14 This is the first undergraduate textbook to provide a comprehensive overview of essential knowledge, skill, and attitudes about safety in nursing practice. It reflects the six areas of nursing competencies as developed by the Quality and Safety Education Program for Nurses (QSEN) initiative, which are currently required content in undergraduate nursing programs. Using an inter-professional focus, the book addresses the fundamental knowledge required of entry-level nurses in each of the six QSEN areas: quality improvement, patient safety, teamwork and collaboration, evidence-based practice, informatics, and patient-centered care. The book includes all of the content required for nursing programs to be accredited by AACN or NLN. Contributors include nurse educators, faculty,

researchers, administrators, case managers, quality improvement practitioners, and entrepreneurs of nursing as well as physicians and librarians from throughout the U.S. Readers will be privy to the unique perspectives of different health care partners who provide real life examples from an inter-professional team perspective. These include pharmacists, lawyers, physicians, librarians, quality improvement nurses, radiology technologists, nurse practitioners, hospital board members, patients, and others. Each chapter includes objectives, opening scenarios, case studies, critical thinking exercises, key terms, NCLEX-style questions, photos, tables, figures, web resources, recommendations for additional reading, and PowerPoint slides. An important feature of the book is the listing of QSEN competencies and the associated knowledge, skills, and attitudes (KSA) in the Appendix. Key Features: Comprises the only undergraduate text to address the six areas of requisite nursing competencies as developed by the QSEN initiative Provides a strong foundation for safe, evidence-based care Presents an inter-professional approach that reflects health care today Supports teaching with PowerPoint slides, critical thinking exercises, case studies, and rationales for review questions Includes objectives, critical thinking exercises, case studies, real world interviews, tables, figures, visuals, and suggested readings in each chapter

But I Have Called You Friends Mother Mary Francis 2006-01-01 Mother Mary Francis gives us a fresh look at one of the oldest arts--friendship. Long before you have finished the book, you will know that the author really means it. She goes to the source of love and invites you to accompany her. You cannot sell friendship. You can only give it away. That is what Mother Mary Francis does. Mother Mary Francis tells us how to recapture the commodity in shortest supply in the world, the love and friendship of Jesus Christ, in whom we have our friendship with all his brothers and sisters.

Crossing the Quality Chasm Institute of Medicine 2001-08-19 Second in a series of publications from the Institute of Medicine's

Quality of Health Care in America project Today's health care providers have more research findings and more technology available to them than ever before. Yet recent reports have raised serious doubts about the quality of health care in America. Crossing the Quality Chasm makes an urgent call for fundamental change to close the quality gap. This book recommends a sweeping redesign of the American health care system and provides overarching principles for specific direction for policymakers, health care leaders, clinicians, regulators, purchasers, and others. In this comprehensive volume the committee offers: A set of performance expectations for the 21st century health care system. A set of 10 new rules to guide patient-clinician relationships. A suggested organizing framework to better align the incentives inherent in payment and accountability with improvements in quality. Key steps to promote evidence-based practice and strengthen clinical information systems. Analyzing health care organizations as complex systems, Crossing the Quality Chasm also documents the causes of the quality gap, identifies current practices that impede quality care, and explores how systems approaches can be used to implement change.

30 Things I Love About Myself Radhika

Sanghani 2022-01-04 When Nina Mistry's life hits rock bottom, she decides to change her stars by falling in love...with herself—a hilarious, heartfelt story from outrageously funny novelist Radhika Sanghani. Nina didn't plan to spend her thirtieth birthday in jail, yet here she is in her pajamas, locked in a holding cell. There's no Wi-Fi, no wine, no carbs—and no one to celebrate with. Unfortunately, it gives Nina plenty of time to reflect on how screwed up her life is. She's just broken up with her fiancé, and now has to move back into her childhood home to live with her depressed older brother and their uptight, traditional Indian mother. Her career as a freelance journalist isn't going in the direction she wants, and all her friends are too busy being successful to hang out with her. Just as Nina falls into despair, a book lands in her cell: *How to Fix Your Shitty Life by Loving Yourself*. It must be destiny. With literally nothing left to lose, Nina makes a life-changing decision to embark on a

self-love journey. By her next birthday, she's going to find thirty things she loves about herself.

Caste Isabel Wilkerson 2020-08-04 #1 NEW YORK TIMES BESTSELLER • OPRAH'S BOOK CLUB PICK • “An instant American classic and almost certainly the keynote nonfiction book of the American century thus far.”—Dwight Garner, The New York Times The Pulitzer Prize-winning, bestselling author of *The Warmth of Other Suns* examines the unspoken caste system that has shaped America and shows how our lives today are still defined by a hierarchy of human divisions. #1 NONFICTION BOOK OF THE YEAR: Time ONE OF THE BEST BOOKS OF THE YEAR: The Washington Post, The New York Times, Los Angeles Times, The Boston Globe, O: The Oprah Magazine, NPR, Bloomberg, The Christian Science Monitor, New York Post, The New York Public Library, Fortune, Smithsonian Magazine, Marie Claire, Slate, Library Journal, Kirkus Reviews Winner of the Carl Sandberg Literary Award • Winner of the Los Angeles Times Book Prize • National Book Award Longlist • National Book Critics Circle Award Finalist • Dayton Literary Peace Prize Finalist • PEN/John Kenneth Galbraith Award for Nonfiction Finalist • PEN/Jean Stein Book Award Longlist • Kirkus Prize Finalist “As we go about our daily lives, caste is the wordless usher in a darkened theater, flashlight cast down in the aisles, guiding us to our assigned seats for a performance. The hierarchy of caste is not about feelings or morality. It is about power—which groups have it and which do not.” In this brilliant book, Isabel Wilkerson gives us a masterful portrait of an unseen phenomenon in America as she explores, through an immersive, deeply researched, and beautifully written narrative and stories about real people, how America today and throughout its history has been shaped by a hidden caste system, a rigid hierarchy of human rankings. Beyond race, class, or other factors, there is a powerful caste system that influences people's lives and behavior and the nation's fate. Linking the caste systems of America, India, and Nazi Germany, Wilkerson explores eight pillars that underlie caste systems across civilizations, including divine will, bloodlines, stigma, and more. Using riveting stories about

people—including Martin Luther King, Jr., baseball’s Satchel Paige, a single father and his toddler son, Wilkerson herself, and many others—she shows the ways that the insidious undertow of caste is experienced every day. She documents how the Nazis studied the racial systems in America to plan their outcasting of the Jews; she discusses why the cruel logic of caste requires that there be a bottom rung for those in the middle to measure themselves against; she writes about the surprising health costs of caste,

in depression and life expectancy, and the effects of this hierarchy on our culture and politics. Finally, she points forward to ways America can move beyond the artificial and destructive separations of human divisions, toward hope in our common humanity. Original and revealing, *Caste: The Origins of Our Discontents* is an eye-opening story of people and history, and a reexamination of what lies under the surface of ordinary lives and of American life today.
