Ideology of Democratic Athens Barbato Matteo Barbato 2020-05-28 Investigates the construction of democratic ideology in Classical Athens through a study of the social memory of Athens' mythical past Proposes a novel approach to Athenian democratic ideology that opens new frontiers of investigation in ancient history and the social sciences The introduction clearly sets out the aims and methodology of the book and its place within the scholarship in ancient history and the social sciences Four case studies illuminate the impact of Athenian democratic institutions on ideology, myth, and the use of social memory Offers a long-awaited new interpretation of the Athenian funeral oration for the war dead Offers clear overviews of Athenian democratic institutions (e.g., Assembly, Council, lawcourts) based on the most recent scholarship Provides up-to-date overviews of several values in Greek thought (e.g., charis, hybris, eugeneia) The debate on Athenian democratic ideology has long been polarised around two extremes. A Marxist tradition views ideology as a cover-up for Athens' internal divisions. Another tradition, sometimes referred to as culturalist, interprets it neutrally as the fixed set of ideas shared by the members of the Athenian community. Matteo Barbato addresses this dichotomy by providing a unitary approach to Athenian democratic ideology. Analysing four different myths from the perspective of the New Institutionalism, he demonstrates that Athenian democratic ideology was a fluid set of ideas, values and beliefs shared by the Athenians as a result of a constant ideological practice influenced by the institutions of the democracy. He shows that this process entailed the active participation of both the mass and the elite and enabled the Athenians to produce multiple and compatible ideas about their community and its mythical past.

Process Innovation: Enabling Change by Technology Daniel R. A. Schallmo 2018-05-10
This management manual and textbook introduces the theoretical basics of process management and provides a procedural model for process innovation. The procedural model makes it possible to develop customer-oriented processes in a structured manner and to design them in order to meet changing requirements. This textbook has been recommended and developed for university courses in Germany, Austria and Switzerland. This book enables readers to understand and apply the seven phase procedural model for process innovation in order to design and implement innovative processes. Exercises and review questions test understanding of the theoretically acquired knowledge.

Aeschylus: Persae A. F. Garvie 2009-08-27
Aeschylus' Persae, first produced in 472 BC, is the oldest surviving Greek tragedy. It is also the only extant Greek tragedy that deals, not with a mythological subject, but with an event of recent history, the Greek defeat of the Persians at Salamis in 480 BC. Unlike *Aeschylus'* other surviving plays, it is apparently not part of a connected trilogy. In this new edition A. F. Garvie encourages the reader to assess the *Persae* on its own terms as a drama. It is not a patriotic celebration, or a play with a political manifesto, but a genuine tragedy, which, far from presenting a simple moral of hybris punished by the gods, poses questions concerning human suffering to which there are no easy answers. In his Introduction Garvie defends the play's structure against its critics, and considers its style, the possibility of thematic links between it and the other plays presented by *Aeschylus* on the same occasion, its staging, and the state of the transmitted text. The Commentary develops in greater detail some of the conclusions of the Introduction.

Hybris del arte contemporáneo Carlos Enrique García Lara 2014-01-30 "Desde una articulación multidisciplinar -aunque desde un eje de interpretación psicoanalítico -, el libro propone una reflexión sobre la idea de la "muerte del Arte". Lo hace en base a una homología existente hoy entre el objeto del arte contemporáneo, y la nueva subjetividad de sus creadores y espectadores. La convergencia en su condición de objeto, sería el efecto mayor de la primacía del discurso científico-técnico, el nuevo capitalismo de mercado y la crisis simbólica de la subjetividad moderna, que afectan hoy a la totalidad de la Cultura".

Sex and the Second-Best City Kenneth Royce Moore 2005-07-19 Sex and the Second-Best City deals with the topics of sex and society in the Laws of Plato with recourse to historical context and modern critical theory. It examines reconstructions of ancient "sexuality" with a view to increased clarification. The text of the Laws is considered, along with many of its literary qualities, its influences and the utopian plan that it proposes.

Mockery and Secretism in the Social World of Mark's Gospel Dietmar Neufeld 2014-04-24 Having established the context of mockery and shame in Ancient Mediterranean cultures, Dietmar Neufeld shows how Mark presented Jesus as a person with a sense of honour and with a sense of shame, willing to accept the danger of being visible and the mockery it attracted. Neufeld also considers the social functions of ridicule/mockery more broadly as strategies of social sanction, leading to a better understanding of how social, religious, and political practices and discourse variously succeeded or failed in Mark. Finally, Neufeld investigates the author of Mark's preoccupation with 'secrecy', showing that his disposition to secrecy in his narrative heightened when the dangers of scorn and ridicule from crowds or persons became pressing concerns. In a fiercely competitive literary environment where mocking and being mocked were ever present dangers, Mark, in his pursuit of authority gains it by establishing a reputation of possessing authentic, secret knowledge. In short, the so-called secrecy motif is shown to be deployed for

specific, strategic reasons that differ from those that have been traditionally advanced.

War and Violence in Ancient Greece Hans van Wees 2009-12-31 The study of Greek warfare should involve much more than reconstructing the experience of combat or revisiting the great wars of the classical period. Here, a distinguished cast of international scholars explores beyond the usual thematic and chronological boundaries. Ranging from the heroes of Homer to the kings and cities of the hellenistic age, the contributors set war in the context of other forms of Greek violence, private and public. At every turn they challenge received ideas about the causes and conduct of war, its development and its place in Greek society and culture.

SAP C/4HANA Sanjeev K. Singh 2019

La hybris del punto cero Santiago Castro-Gómez 2010-04-14 Inscrito en la perspectiva de los

estudios poscoloniales, este trabajo parte del supuesto de que la violencia ejercida por el colonialismo europeo en el mundo no fue solo física y económica sino también "epistémica". El autor defiende la tesis de que hacia finales del siglo XVIII, la violencia epistémica del imperio español en América asume una forma específica: la hybris del punto cero. Es el momento en que la irrupción mundial del capitalismo exigía que la multiplicidad de expresiones culturales del planeta fuera traducida como una serie de diferencias ordenadas en el tiempo. Las "muchas formas de conocer" quedan integradas en una jerarquía cronológica donde el conocimiento científico ilustrado aparece en el lugar más alto de la escala cognitiva, mientras que todas las demás epistemes son vistas como su pasado. Los pensadores criollos ilustrados, vehículos de esta nueva política del significado, no dudaron en ubicar a los negros, indios y mestizos de la Nueva Granada en el lugar más bajo de la escala cognitiva. A estas poblaciones y no a los criollos debían dirigirse las biopolíticas disciplinarias del imperio. Situación que lleva al autor a defender la tesis de que en la periferia colonial hispanoamericana, Aukklärung no era solo el lugar de la distancia étnica de los criollos frente a las "castas". A la pureza cognitiva a nivel de la ciencia correspondería entonces una pureza de sangre a nivel de la nación. La violencia epistémica y no solo la violencia física se encontraría así en el origen mismo de la nacionalidad colombiana.

Citizen and Self in Ancient Greece Vincent Farenga 2006-05-29 This 2006 study examines how the ancient Greeks decided questions of justice as a key to understanding the intersection of our moral and political lives. Combining contemporary political philosophy with historical, literary and philosophical texts, it examines a series of remarkable individuals who performed 'scripts' of justice in early Iron Age, archaic and classical Greece. From the earlier periods, these include Homer's Achilles and Odysseus as heroic individuals who are also prototypical citizens, and Solon the lawgiver, writing the scripts of statute law and the jury trial. In democratic Athens, the focus turns to dialogues between a citizen's moral autonomy and political obligation in Aeschyleon tragedy, Pericles' citizenship paradigm, Antiphon's sophistic thought and forensic oratory, the political leadership of Alcibiades and Socrates' moral individualism.

Studies on Greek Law, Oratory and Comedy

Authored by Douglas M. MacDowell 2017-09-22
 Douglas M. MacDowell (1931-2010) was a scholar
 of international renown and the articles included
 here cover a significant area of classical
 scholarship, discussing Athenian law, law-making
 and legal procedure, Old Comedy, comedy and
 law, politics and lexicography. All of these articles,
 published between 1959 and 2010, bear the
 characteristic marks of his scholarship: precision,
 balanced judgement, brevity and deep learning;
 they are rational and sober accounts of
 complicated and controversial issues. Many of
 these essays are virtually inaccessible as they
 were originally published in celebratory volumes
 or article collections which are now out of print or
 difficult to find outside major libraries. This
 collection of MacDowell's articles will make these
 works available to a broad scholarly audience, and
 make it easier to bring this scholarship to the
 classroom as part of courses in Classics, ancient
 history, legal history and theatre studies. The
 volume includes a biography of MacDowell by
 Christopher Carey, based on the testimony of his
 closest colleagues and personal friends, which
 was presented to the British Academy.

Hybris (Camilo Aldao, La puerta del viento, Sindicalia) Alberto Laiseca 2023-02-01 El poder, la violencia, el anticomunismo, la orfandad, la búsqueda desesperada del amor, la traición, el esoterismo: las obsesiones de este autor único en dos novelas inéditas -Camilo Aldao y Sindicalia, última y primera que escribió- y La puerta del viento, libro que tardó años en escribir y resume su fascinación por la guerra de Vietnam. «Si Sindicalia es su primera novela y La puerta del viento la novela que le debía a su juventud, Camilo

Aldao es el esfuerzo supremo por no entregar el Territorio Lai a las tropas de la muerte. Y las tres novelas reunidas son la hybris de Laiseca: su desmesura. Como dice en La puerta del viento: "Solo cumplíamos las órdenes del exceso». Selva Almada Infidelidad, traición, sexo, masoquismo, libros, guerra, violencia, anticomunismo, fascismo, soledad, desamor. En clave esotérica y delirante, detonan la clásica división binaria: aquí realidad/allí ficción; ¿cuerdo o loco de atar?, la escritura o la vida... Intacta, su demasía encuentra en este volumen con inéditos una de las tantas formas posibles. Discípulos del mítico taller del Maestro, Selva Almada y Sebastián Pandolfelli rescataron -entre un desquicio de papeles, anotaciones sueltas y un proverbial anecdotario- no solo estos originales. También el ánimo para reinterpretar ese fenómeno astrológico y paranormal llamado Alberto Laiseca, que altera todavía hoy los aparejos críticos y amenaza esa ilusión llamada Literatura argentina.

Demosthenes, Speeches 20-22 Demosthenes. 2010-09-01 This is the twelfth volume in the Oratory of Classical Greece. This series presents all of the surviving speeches from the late fifth and fourth centuries BC in new translations prepared by classical scholars who are at the forefront of the discipline. These translations are especially designed for the needs and interests of today's undergraduates, Greekless scholars in other disciplines, and the general public. Classical oratory is an invaluable resource for the study of ancient Greek life and culture. The speeches offer evidence on Greek moral views, social and economic conditions, political and social ideology, law and legal procedure, and other aspects of Athenian culture that have recently been attracting particular interest: women and family life, slavery, and religion, to name just a few. Demosthenes is regarded as the greatest orator of classical antiquity. This volume contains three important speeches from the earliest years of his political career: Against Leptines, a prosecution brought against a law repealing all exemptions from liturgies; Against Meidias, a prosecution for aggravated insult (hybris) brought against an influential politician; and Against Androtion, an indictment of a decree of honors for the Council of

Athens. Edward M. Harris provides contemporary English translations of these speeches, two of which (Leptines and Androtion) have not been translated into English in over sixty years, along with introductions and extensive notes that take account of recent developments in Classical scholarship.

Concord and Peace Odd Magne Bakke 2001 Odd Magne Bakke presents the first in-depth study of 1 Clement from the standpoint of the letter's rhetoric. He bases his methodological analysis on tools from the Graeco-Roman rhetorical tradition, using both the handbooks as well as actual speeches and letters. These are supplemented by tools from modern text linguistics, which the author uses to do a compositional analysis of the letter, and by the tools of modern semantics, used to establish the language of concord in 1 Clement which it has in common with other relevant ancient literature. The author's approach constitutes a fresh reading of 1 Clement and provides new suggestions on several important issues in the immense research on the letter. He demonstrates both the thematic and argumentative unity of the letter. Its macro-structure reflects the conventional parts of the dispositio of ancient rhetoric (exordium, narratio, probatio, peroratio). Also, the sub-texts on

different levels of these parts are shown to be integrated into and to serve Clement's overall argument for re-establishing concord and peace in the Corinthian church. Odd Magne Bakke questions the traditional views that the conflict in this church was between 'spirit' and 'office' or was a matter of 'doctrine'. He argues that Clement primarily regarded it as a conflict between people of different socio-economic statuses in which a struggle for honor appeared to be an important aspect.

Not Sparing the Child: Human Sacrifice in the Ancient World and Beyond Daphna Arbel 2015-02-26 The role of human sacrifice in the ancient Mediterranean world and its implications continue to be topics that fire the popular imagination and engender scholarly discussion and controversy. This volume provides balanced and judicious treatments of the various facets of these topics from a cross-disciplinary and cross-cultural perspective. It provides nuanced examinations of ancient ritual, exploring the various meanings that human sacrifice held for antiquity, and examines its varied repercussions up into the modern world. The book explores evidence to shed new light on the origins of the rite, to whom these sacrifices were offered, and by whom they were performed. It presents fresh insights into the social and religious meanings of this practice in its varied biblical landscape and ancient contexts, and demonstrates how human sacrifice has captured the imagination of later writers who have employed it in diverse cultural and theological discourses to convey their own views and ideologies. It provides valuable perspectives for understanding key cultural, theological and ideological dimensions, such as the sacrifice of Christ, scapegoating, self-sacrifice and martyrdom in post-biblical and modern times.
