American Lion Jon Meacham 2009-04-30 The definitive biography of a larger-than-life president who defied norms, divided a nation, and changed Washington forever Andrew Jackson, his intimate circle of friends, and his tumultuous times are at the heart of this remarkable book about the man who rose from nothing to create the modern presidency. Beloved and hated, venerated and reviled, Andrew Jackson was an orphan who fought his way to the pinnacle of power, bending the nation to his will in the cause of democracy. Jackson's election in 1828 ushered in a new and lasting era in which the people, not distant elites, were the guiding force in American politics. Democracy made its stand in the Jackson years, and he gave voice to the hopes and the fears of a restless, changing nation facing challenging times at home and threats abroad. To tell the saga of Jackson's presidency, acclaimed author Jon Meacham goes inside the Jackson White House. Drawing on newly discovered family letters and papers, he details the human drama—the family, the women, and the inner circle of advisers— that shaped Jackson's private world through years of storm and victory. One of our most significant yet dimly recalled presidents, Jackson was a battle-hardened warrior, the founder of the Democratic

Party, and the architect of the presidency as we know it. His story is one of violence, sex, courage, and tragedy. With his powerful persona, his evident bravery, and his mystical connection to the people, Jackson moved the White House from the periphery of government to the center of national action, articulating a vision of change that challenged entrenched interests to heed the popular will— or face his formidable wrath. The greatest of the presidents who have followed Jackson in the White House—from Lincoln to Theodore Roosevelt to FDR to Truman—have found inspiration in his example, and virtue in his vision. Jackson was the most contradictory of men. The architect of the removal of Indians from their native lands, he was warmly sentimental and risked everything to give more power to ordinary citizens. He was, in short, a lot like his country: alternately kind and vicious, brilliant and blind; and a man who fought a lifelong war to keep the republic safe—no matter what it took.

Andrew Jackson H. W. Brands 2006-10-10 NATIONAL BESTSELLER • From the two-time Pulitzer Prize finalist and New York Times bestselling author of *The First American* comes the first major single-volume biography in a decade of the president who defined American democracy • "A big, rich biography." —The Boston Globe H. W. Brands reshapes our understanding of this fascinating man, and of the Age of Democracy that he ushered in. An orphan at a young age and without formal education or the family lineage of the Founding Fathers, Jackson showed that the presidency was not the exclusive province of the wealthy and the well-born but could truly be held by a man of the people. On a majestic, sweeping scale Brands re-creates Jackson's rise from his hardscrabble roots to his days as frontier lawyer, then on to his heroic victory in the Battle of New Orleans, and finally to the White House. Capturing Jackson's outsized life and deep impact on American history, Brands also explores his controversial actions, from his unapologetic expansionism to the disgraceful Trail of Tears.

The Papers of Andrew Jackson: 1816-1820 Andrew Jackson 1980 V. 10. This volume presents more than four hundred documents from Andrew

Jackson's fourth presidential year. It includes private memoranda, intimate family letters, drafts of official messages, and correspondence with government and military officers, diplomats, Indians, political friends and foes, and ordinary citizens throughout the country. The year 1832 began with Jackson still pursuing his feud with Vice President John C. Calhoun, whom Jackson accused of secretly siding against him in the 1818 controversy over Jackson's Seminole campaign in Florida. The episode ended embarrassingly for Jackson when a key witness, called on to prove his charges, instead directly contradicted them. Indian removal remained a preoccupation for Jackson. The Choctaws began emigrating westward, the Creeks and Chickasaws signed but then immediately protested removal treaties, and the Cherokees won what proved to be an empty victory against removal in the Supreme Court. Illinois Indians mounted armed resistance in the Black Hawk War. In midsummer, a cholera epidemic swept the country, and Jackson was urged to proclaim a day of fasting and prayer. He refused, saying it would intermingle church and state. A bill to recharter the Bank of the United States passed Congress in July, and Jackson vetoed it with a ringing message that became the signature document of his presidency. In November, Jackson, with new running mate Martin Van Buren, won triumphant reelection over Henry Clay. But only days later, South Carolina nullified the federal tariff law and began preparing for armed resistance. Jackson answered with an official proclamation that disunion by armed force is treason. The year closed with Jackson immersed in plans to suppress nullification and destroy the Bank of the United States. Embracing all these stories and many more, this volume offers an incomparable window into Andrew Jackson, his presidency, and America itself in 1832. --

Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

Tennesseans at War, 1812-1815 Tom Kanon 2014-06-14 Tennesseans at War, 1812-1815 by Tom Kanon tells the often forgotten story of the central role citizens and soldiers from Tennessee played in the Creek War in Alabama and War of 1812. Although frequently discussed as separate military conflicts, the War of 1812 against Great Britain and the Creek War against Native Americans in the territory that would become Alabama were part of the same forceful projection of growing American power. Success in both wars won for America security against attack from abroad and vast tracks of new land in "the Old Southwest." In Tennesseans at War, 1812-1815, Tom Kanon explains the role Tennesseans played

in these changes and how they remade the south. Because it was a landlocked frontier state, Tennessee's economy and security depended heavily upon the river systems that traversed the region; some, like the Tennessee River, flowed south out of the state and into Native American lands. Tennesseans of the period perceived that gaining mastery of these waterways formed an urgent part of their economic survival and stability. The culmination of fifteen years' research, Kanon's work draws on state archives, primary sources, and eyewitness accounts, bringing the information in these materials together for first time. Not only does he narrate the military campaigns at the heart of the young nation's expansion, but he also deftly recalls the economic and social pressures and opportunities that encouraged large numbers of Tennesseans to leave home and fight. He expertly weaves these themes into a cohesive narrative that culminates in the vivid military victories of the War of 1812, the Creek War, and the legendary Battle of New Orleans—the victory that catapulted Tennessee's citizen-soldier Andrew Jackson to the presidency. Expounding on the social roles and conditions of women, slaves, minorities, and Native Americans in Tennessee, Kanon also brings into focus the key idea of the "home front" in the minds of Tennesseans doing battle in Alabama and beyond. Kanon shows how the goal of creating, strengthening, and maintaining an ordered society permeated the choices and actions of the American elites on the frontiers of the young nation. Much more than a history of Tennesseans or the battles they fought in Alabama, Tennesseans at War, 1812-1815, is the gripping story of a pivotal turning point in the history of the young American republic.

Legal Papers of Andrew Jackson Andrew Jackson 1987

Glorious Victory Donald R. Hickey 2015-05-15 The story of the battle that saved New Orleans, made Andrew Jackson a hero for the ages, and shaped the American public memory of the war. Whether or not the United States "won" the war of 1812, two engagements that occurred toward the end of the conflict had an enormous influence on the development of American identity: the

successful defenses of the cities of Baltimore and New Orleans. Both engagements bolstered national confidence and spoke to the élan of citizen soldiers and their militia officers. The Battle of New Orleans—perhaps because it punctuated the war, lent itself to frontier mythology, and involved the larger-than-life figure of Andrew Jackson—became especially important in popular memory. In *Glorious Victory*, leading War of 1812 scholar Donald R. Hickey recounts the New Orleans campaign and Jackson's key role in the battle. Drawing on a lifetime of research, Hickey tells the story of America's "forgotten conflict." He explains why the fragile young republic chose to challenge Great Britain, then a global power with a formidable navy. He also recounts the early campaigns of the war—William Hull's ignominious surrender at Detroit in 1812; Oliver H. Perry's remarkable victory on Lake Erie; and the demoralizing British raids in the Chesapeake that culminated in the burning of Washington. Tracing Jackson's emergence as a leader in Tennessee and his extraordinary success as a military commander in the field, Hickey finds in Jackson a bundle of contradictions: an enemy of privilege who belonged to Tennessee's ruling elite, a slaveholder who welcomed free blacks into his army, an Indian-hater who adopted a native orphan, and a general who lectured his superiors and sometimes ignored their orders while simultaneously demanding unquestioning obedience from his men. Aimed at students and the general public, *Glorious Victory* will reward readers with a clear understanding of Andrew Jackson's role in the War of 1812 and his iconic place in the postwar era.

Correspondence of Andrew Jackson Andrew Jackson 1928

Andrew Jackson Sean Wilentz 2007-04-01 The towering figure who remade American politics—the champion of the ordinary citizen and the scourge of entrenched privilege "It is rare that historians manage both Wilentz's deep interpretation and lively narrative." - Publishers Weekly The Founding Fathers espoused a republican government, but they were distrustful of the common people, having designed a constitutional system that would temper popular

passions. But as the revolutionary generation passed from the scene in the 1820s, a new movement, based on the principle of broader democracy, gathered force and united behind Andrew Jackson, the charismatic general who had defeated the British at New Orleans and who embodied the hopes of ordinary Americans. Raising his voice against the artificial inequalities fostered by birth, station, monied power, and political privilege, Jackson brought American politics into a new age. Sean Wilentz, one of America's leading historians of the nineteenth century, recounts the fiery career of this larger-than-life figure, a man whose high ideals were matched in equal measure by his failures and moral blind spots, a man who is remembered for the accomplishments of his eight years in office and for the bitter enemies he made. It was in Jackson's time that the great conflicts of American politics—urban versus rural, federal versus state, free versus slave—crystallized, and Jackson was not shy about taking a vigorous stand. It was under Jackson that modern American politics began, and his legacy continues to inform our debates to the present day.

Andrew Jackson: A Biography Robert V. Remini 2008-09-02 Reveals why Jackson's bold leadership as a general cemented "Old Hickory"'s reputation for being tough, and ultimately led to his election as President of the United States in 1828.

Andrew Jackson and the Bank War Robert V. Remini 1967

Andrew Jackson Robert V. Remini 1990-12 A bibliography of writings by and about the seventh President of America, this book provides information on Andrew Jackson's career, studies of both his career and personal life using manuscript and archival resources, articles, interviews, iconographic resources and government documents. The text contains a biographical essay and a chronology of significant events in Jackson's life and describes the personalities surrounding him in the political arena, in Congress, in the Supreme Court and in the presidential administration. This series offers bibliographies on every US president, from George Washington through to George Bush.

The Life of Andrew Jackson Robert V. Remini

2011-09-13 Robert V. Remini's prize-winning, three-volume biography *Life of Andrew Jackson* won the National Book Award on its completion in 1984 and is recognized as one of the greatest lives of a U.S. President. In this meticulously crafted single-volume abridgment, Remini captures the essence of the life and career of the seventh president of the United States. As president, from 1829-1837, Jackson was a significant force in the nation's expansion, the growth of presidential power, and the transition from republicanism to democracy. Jackson is a highly controversial figure who is undergoing historical reconsideration today. He is known as spurring the emergence of the modern American political division of Republican and Democratic parties, for the infamous Indian removal on the Trail of Tears, and for his brave victory against the British as Major General at the Battle of New Orleans. Never an apologist, Remini portrays Jackson as a forceful, sometimes tragic, hero—a man whose strength and flaws were larger than life, a president whose conviction provided the nation with one of the most influential, colorful, and controversial administrations in our history. *Correspondence of Andrew Jackson* Andrew Jackson 1931

The Birth of Modern Politics Lynn Hudson Parsons 2009-05-01 The 1828 presidential election, which pitted Major General Andrew Jackson against incumbent John Quincy Adams, has long been hailed as a watershed moment in American political history. It was the contest in which an unlettered, hot-tempered southwestern frontiersman, trumpeted by his supporters as a genuine man of the people, soundly defeated a New England "aristocrat" whose education and political résumé were as impressive as any ever seen in American public life. It was, many historians have argued, the country's first truly democratic presidential election. It was also the election that opened a Pandora's box of campaign tactics, including coordinated media, get-out-the-vote efforts, fund-raising, organized rallies, opinion polling, campaign paraphernalia, ethnic voting blocs, "opposition research," and smear tactics. In *The Birth of Modern Politics*, Parsons shows that the Adams-Jackson contest also began

a national debate that is eerily contemporary, pitting those whose cultural, social, and economic values were rooted in community action for the common good against those who believed the common good was best served by giving individuals as much freedom as possible to promote their own interests. The book offers fresh and illuminating portraits of both Adams and Jackson and reveals how, despite their vastly different backgrounds, they had started out with many of the same values, admired one another, and had often been allies in common causes. But by 1828, caught up in a shifting political landscape, they were plunged into a competition that separated them decisively from the Founding Fathers' era and ushered in a style of politics that is still with us today.

The Reign of Andrew Jackson Frederic Austin Ogg 2023-07-18 This book chronicles the political career of Andrew Jackson, the seventh president of the United States. It examines his policies, his impact on the nation, and his legacy. Through extensive research and insightful analysis, Frederic Austin Ogg provides a rich portrait of a complex and controversial figure in American history. This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work is in the "public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant. *Memoirs of Andrew Jackson, Major-General in the Army of the United States* S. Putnam Waldo 2015-06-24 Excerpt from *Memoirs of Andrew Jackson, Major-General in the Army of the United States* The high estimation in which Maj. Gen. Andrew Jackson, is justly holden by his countrymen, was the inducement to present them with the following *Memoirs of his Life*. Ever since his name became identified with the glory of his

country, the author has assiduously sought for the most authentic information relative to his origin, and his progress from humble life to his present elevation. The facts relative to his parentage, his birth, education, and early pursuits, were derived from a Southern Correspondent, whose means of knowledge, entitles his communications to the character of absolute verity. From the early entrance of Gen. Jackson into public life and from the laudable propensity of Americans to preserve, in the various periodical journals, detached incidents of the lives of American Worthies, it needs only industry and research to collate them. The manner which they are arranged, and the style in which they are detailed, depends wholly upon the author. To give additional interest to the volume, a number of Gen. Jackson's Official Reports, and some selections from his numerous Letters, and Addresses are incorporated into the work. They not only give the most satisfactory account of the battles in which he fought, and the measures he pursued; but they show that he wields the pen of a Scholar, as well as the sword of a Soldier. Apologies for the defects of the work, cannot remove them, and will not be attempted. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. [The Papers of Andrew Jackson](#) 2018

Correspondence of Andrew Jackson: to April 30, 1814 Andrew Jackson 1926

A Compilation of the Messages and Papers of the Presidents James D. Richardson 2009-03-03

The Presidency of Andrew Jackson Donald B. Cole 1993 In 1829 Andrew Jackson arrived in

Washington in a carriage. Eight years and two turbulent presidential terms later, he left on a

train. Those years, among the most prosperous in American history, saw America transformed not only by growth in transportation but by the expansion of the market economy and the formation of the mass political party. Jackson's ambivalence—and that of his followers—toward the new politics and the new economy is the story of this book. Historians have often depicted the Old Hero (or Old Hickory) as bigger than life—so prominent that his name was wed to an era. Donald Cole presents a different Jackson, one not always sure of himself and more controlled by than in control of the political and economic forces of his age. He portrays Jackson as a leader who yearned for the agrarian past but was also entranced by the future of a growing market economy. The dominant theme of Jackson's presidency, Cole argues, was his inconsistent and unsuccessful battle to resist market revolution. Elected by a broad coalition of interest groups, Jackson battled constantly not only his opponents but also his supporters. He spent most of his first term rearranging his administration and contending with Congress. His accomplishments were mostly negative—relocating Indians, vetoing road bills and the Bank bill, and opposing nullification. The greatest achievement of his administration, the rise of the mass political party, was more the work of advisers than of Jackson himself. He did, however, make a lasting imprint, Cole contends. Through his strength, passions, and especially his anxiety, Jackson symbolized the ambivalence of his fellow Americans at a decisive moment—a time when the country was struggling with the conflict between the ideals of the Revolution and the realities of nineteenth-century capitalism.

The Battle of New Orleans Robert V. Remini
2001-05-01 The Battle of New Orleans was the climactic battle of America's "forgotten war" of 1812. Andrew Jackson led his ragtag corps of soldiers against 8,000 disciplined invading British regulars in a battle that delivered the British a humiliating military defeat. The victory solidified America's independence and marked the beginning of Jackson's rise to national prominence. Hailed as "terrifically readable" by the Chicago Sun Times, *The Battle of New Orleans*

is popular American history at its best, bringing to life a landmark battle that helped define the character of the United States.

The Rise of Andrew Jackson David S. Heidler
2018-10-23 The story of Andrew Jackson's improbable ascent to the White House, centered on the handlers and propagandists who made it possible Andrew Jackson was volatile and prone to violence, and well into his forties his sole claim on the public's affections derived from his victory in a thirty-minute battle at New Orleans in early 1815. Yet those in his immediate circle believed he was a great man who should be president of the United States. Jackson's election in 1828 is usually viewed as a result of the expansion of democracy. Historians David and Jeanne Heidler argue that he actually owed his victory to his closest supporters, who wrote hagiographies of him, founded newspapers to savage his enemies, and built a political network that was always on message. In transforming a difficult man into a paragon of republican virtue, the Jacksonites exploded the old order and created a mode of electioneering that has been mimicked ever since. !--[endif]--

People That Changed the Course of History Danielle Thorne 2016 During his two terms as president, Jackson enacted several controversial policies, including the closing of the Bank of the United States and the Indian Removal Act, which eventually led to the Trail of Tears. Whether you love him or hate him, Andrew Jackson was one of the most influential presidents of his day. Take a closer look at Old Hickory and his impact on American history.

In Defense of Andrew Jackson Bradley J. Birzer
2018-09-11 "He was a man of the frontier, self-made but appreciative of those who gave him their loyalty and support. He was, pure and simple, and American..." He was controversial in his time—and even more controversial in our own. Indian fighter, ardent patriot, hero of the War of 1812, the very embodiment of America's democratic and frontier spirit, Andrew Jackson was an iconic figure. Today, Jackson is criticized and reviled – condemned as a slave-owner, repudiated as the president who dispatched the Indians down the "Trail of Tears," dropped with embarrassment by the Democratic Party, and demanded by many to

be removed from the twenty-dollar bill. Who is the real Andrew Jackson? The beloved Old Hickory whom Americans once revered? Or the villain who has become a prime target of the Social Justice Warriors? Using letters, diaries, newspaper columns, and notes, historian Bradley Birzer provides a fresh and enlightening perspective on Jackson —unvarnished, true to history, revealing why President Donald Trump sees Andrew Jackson as a political role model, and illustrating the strong parallels between the anxieties of Jacksonian America and the anxieties of the "Hillbilly Elegy" voting bloc of today. In this brilliant new book, Bradley Birzer makes the case that Jackson was... The epitome of the American frontier republican. Passionately devoted to individual liberty. A staunch proponent of Christian morality. Not only dedicated but also vital to the preservation of the Union. A significant and influential role model to President Donald J. Trump. In *Defense of Andrew Jackson* sets the record straight on our seventh president, revealing a radically new but historically accurate perspective on Jackson. "I'm not an Andrew Jackson fan, but I'm definitely a Bradley Birzer fan. His case for Old Hickory is as strong as any I've seen and deserves to be reckoned with." - THOMAS E. WOODS JR., author of *The Politically Incorrect Guide to American History*. "Most discussion of Andrew Jackson falls into predictable ruts, defaulting automatically to clichés that reflect more on our own time than his. Whether America is entering another 'Jacksonian' period depends upon understanding the first one more clearly, and we have Bradley Birzer to thank for taking up a spirited defense of this complicated man and his legacy." - STEVEN F. HAYWARD, author of *The Age of Reagan: The Conservative Counterrevolution 1980-1989*. "Liberal revisionists have pounded Andrew Jackson down to the point where Democrats are ashamed to admit he founded their party. In *Defense of Andrew Jackson* sets the record straight on America's first populist president." - JAMES S. ROBBINS, author of *Erasing America: Losing Our Future by Destroying Our Past*. "As a man and a military hero, Andrew Jackson is as American as they come. But in this timely biography, Bradley Birzer

has managed to peel back layers of cliché and reveal our seventh president as a more complex human being than current textbooks allow." - GLEAVES WHITNEY, director of Grand Valley State University's Hauenstein Center for Presidential Studies.

A Compilation of the Messages and Papers of the Presidents: Andrew Jackson Various 2023-08-12 "A Compilation of the Messages and Papers of the Presidents: Andrew Jackson" by Various. An Interview with Andrew Jackson Ruth Smalley 2001-04 Written in first person, this book is presented through the narrator who is an interviewer sharing a conversation with President Andrew Jackson. Beginning with his youth and going through his military service, political life, and presidency, she covers all the bases in the form of questions and answers. The story expertly weaves actual words of Jackson and his colleagues into the narrative. Tremendous amounts of research are compiled into this work, making it as educational for kids as it is entertaining.

Selling Andrew Jackson Rachel Stephens 2018-06-15 *Selling Andrew Jackson* is the first book-length study of the American portrait painter Ralph E. W. Earl, who worked as Andrew Jackson's personal artist from 1817 until Earl's death in 1838. During this period Jackson held Earl in close council, even providing him residence at the Hermitage, Jackson's home in Tennessee, and at the White House during his presidency. In this well-researched and comprehensive volume, Rachel Stephens examines Earl's role in Jackson's inner circle and the influence of his portraits on Jackson's political career and historical legacy. By investigating the role that visual culture played in early American

history, Stephens reveals the fascinating connections between politics and portraiture in order to challenge existing frameworks for grasping the inner workings of early nineteenth-century politics. Stephens argues that understanding the role Earl played within Jackson's coterie is critical to understanding the trajectory of Jackson's career. Earl, she concludes, should be credited with playing the propagandistic role of image-shaper—long before such a position existed within American presidential politics. Earl's portraits became fine art icons that changed in character and context as Jackson matured from the hero of the Battle of New Orleans to the first common-man president to the leader of the Democratic party, and finally to the rustic sage of the Hermitage. Jackson and Earl worked as a team to exploit an emerging political culture that sought pictures of famous people to complement the nation's exploding mass culture, grounded on printing, fast communications, and technological innovation. To further this cause, Earl operated a printmaking enterprise and used his portrait images to create engravings and lithographs to spread Jackson's influence into homes and businesses. Portraits became vehicles to portray political allegiances, middle-class cultural aspirations, and the conspicuous trappings of wealth and power. Through a comprehensive analysis of primary sources including those detailing Jackson's politics, contemporary political cartoons and caricatures, portraits and prints, and the social and economic history of the period, Stephens illuminates the man they pictured in new ways, seeking to broaden the understanding of such a complicated figure in American history. *Indian Removal Under Andrew Jackson and Its Relationship to the Development of Slavery* Nic H. Anderson 1977

Andrew Jackson, Southerner Mark R. Cheatham 2013-10-07 Many Americans view Andrew Jackson as a frontiersman who fought duels, killed Indians, and stole another man's wife. Historians have traditionally presented Jackson as a man who struggled to overcome the obstacles of his backwoods upbringing and helped create a more democratic United States. In his compelling new biography of Jackson, Mark R. Cheatham argues

for a reassessment of these long-held views, suggesting that in fact "Old Hickory" lived as an elite southern gentleman. Jackson grew up along the border between North Carolina and South Carolina, a district tied to Charleston, where the city's gentry engaged in the transatlantic marketplace. Jackson then moved to North Carolina, where he joined various political and kinship networks that provided him with entrée into society. In fact, Cheatham contends, Jackson had already started to assume the characteristics of a southern gentleman by the time he arrived in Middle Tennessee in 1788. After moving to Nashville, Jackson further ensconced himself in an exclusive social order by marrying the daughter of one of the city's cofounders, engaging in land speculation, and leading the state militia. Cheatham notes that through these ventures Jackson grew to own multiple plantations and cultivated them with the labor of almost two hundred slaves. His status also enabled him to build a military career focused on eradicating the nation's enemies, including Indians residing on land desired by white southerners. Jackson's military success eventually propelled him onto the national political stage in the 1820s, where he won two terms as president. Jackson's years as chief executive demonstrated the complexity of the expectations of elite white southern men, as he earned the approval of many white southerners by continuing to pursue Manifest Destiny and opposing the spread of abolitionism, yet earned their ire because of his efforts to fight nullification and the Second Bank of the United States. By emphasizing Jackson's southern identity -- characterized by violence, honor, kinship, slavery, and Manifest Destiny -- Cheatham's narrative offers a bold new perspective on one of the nineteenth century's most renowned and controversial presidents.

Andrew Jackson in Context Matthew Warshauer 2009 For over a century historians have been unable to agree about Andrew Jackson. Was he as Robert Remini has insisted for more than forty years a masterful politician who shaped the modern presidency and ushered in an era of new democratic politics? Or was he, as James C. Curtis and Andrew Burstein have argued, a loose cannon

who possessed no vision for the American republic? What historians do not doubt is Jackson's significant and lasting impact on American politics and the nation. To fully assess his role and legacy, one must explore the interaction between his personal and political motivations and the larger developments of the early republic and antebellum period. In *Andrew Jackson in Context*, Matthew Warshauer, Professor of History at Central Connecticut State University and author of *Andrew Jackson and the Politics of Martial Law*, offers a detailed look at differing historians' views on Jackson and places these perspectives within an accessible biography of the seventh president. Warshauer insists that any study of Jackson must place him within the context of his time and that his motivations regarding such pivotal issues as economics and the preservation of the Union cannot be divorced from the very real and turbulent politics of the Jacksonian period. The author discounts the psychological driven theories of authors like Curtis and Burstein, though recognises that Jackson was often a vain, blustering, power-driven

man who when he deemed it necessary had no qualms about violating the Constitution. This is an engaging, well-written biography that is perfect for students and those who want to understand not only Jackson and his era, but what historians have written about him.

Life and Public Services of Genl. Andrew Jackson George Bancroft 2017-12-11 *Life and Public Services of Genl. Andrew Jackson - Seventh President of the United States*: including the most important of his state papers is an unchanged, high-quality reprint of the original edition of 1880.
