In Defense of Elitism Joel Stein 2019-10-22 From Thurber finalist and former star Time columnist Joel Stein comes a "brilliant exploration" (Walter Isaacson) of America's political culture war and a hilarious call to arms for the elite. "I can think of no one more suited to defend elitism than Stein, a funny man with hands as delicate as a baby full of soft-boiled eggs." —Jimmy Kimmel, host of Jimmy Kimmel Live! The night Donald Trump won the

presidency, our author Joel Stein, Thurber Prize finalist and former staff writer for Time Magazine, instantly knew why. The main reason wasn't economic anxiety or racism. It was that he was anti-elitist. Hillary Clinton represented Wall Street, academics, policy papers, Davos, international treaties and the people who think they're better than you. People like Joel Stein. Trump represented something far more appealing, which was beating up people like Joel Stein. In a full-throated defense of academia, the mainstream press, medium-rare steak, and civility, Joel Stein fights against populism. He fears a new tribal elite is coming to replace him, one that will fend off expertise of all kinds and send the country hurtling backward to a time of wars, economic stagnation and the well-done steaks doused with ketchup that Trump eats. To find out how this shift happened and what can be done, Stein spends a week in Roberts County, Texas, which had the highest percentage of Trump voters in the country. He goes to the home of Trump-loving Dilbert cartoonist Scott Adams; meets people who create fake news; and finds the new elitist organizations merging both right and left to fight the populists. All the while using the biggest words he knows.

The Art Of Seduction Robert Greene 2010-09-03

Which sort of seducer could you be? Siren? Rake? Cold Coquette? Star? Comedian? Charismatic? Or Saint? This book will show you which. Charm, persuasion, the ability to create illusions: these are some of the many dazzling gifts of the Seducer, the compelling figure who is able to manipulate, mislead and give pleasure all at once. When raised to the level of art, seduction, an indirect and subtle form of power, has toppled empires, won elections and enslaved great minds. In this beautiful, sensually designed book, Greene unearths the two sides of seduction: the characters and the process. Discover who you, or your pursuer, most resembles. Learn, too, the pitfalls of the anti-Seducer. Immerse yourself in the twenty-four manoeuvres and strategies of the seductive process, the ritual by which a seducer gains mastery over their target. Understand how to 'Choose the Right Victim', 'Appear to Be an Object of Desire' and 'Confuse Desire and Reality'. In addition, Greene provides instruction on how to identify victims by type. Each fascinating character and each cunning tactic demonstrates a fundamental truth about who we are, and the targets we've become - or hope to win over. The Art of Seduction is an indispensable primer on the essence of one of history's greatest weapons and the ultimate power trip. From the internationally bestselling author of *The 48 Laws of Power*, *Mastery*, and *The 33 Strategies Of War*.

The 48 Laws of Power Robert Greene 2023-10-31 Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control - from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed "beguiling" and "fascinating," Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence ("Law 1: Never Outshine the Master"), others teach the value of confidence ("Law 28: Enter Action with Boldness"), and many recommend absolute self-preservation ("Law 15: Crush Your Enemy Totally"). Every law, though,

has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

Discourse and Practice Theo van Leeuwen 2008-05-01 Adding a new introduction and two previously unpublished papers, *Discourse and Practice: New Tools for Critical Discourse Analysis* brings together van Leeuwen's methodological work on discourse analysis of the last 15 years. *Discourse*, van Leeuwen argues, is a resource for representation, a knowledge about some aspect of reality which can be drawn upon when that aspect of reality has to be represented, a framework for making sense of things. And they are plural. There can be different discourses, different ways of making sense of the same aspect of reality that serve different interests and will therefore be used in different social contexts. However abstract some discourses are, discourses ultimately always represent doings, van Leeuwen argues. Doing is the foundation of knowing, and social practices are the foundation of discourses. Studying children's books, newspaper reports, brochures and other texts, as well as photographs and children's toys, van Leeuwen investigates what can happen when practices are transformed into

discourses and provides analytical tools for reconstructing discourses from texts. Throughout the book, van Leeuwen makes connections between sociological and linguistic or semiotic concepts and methods to ensure the social and critical relevance of his analytical categories. van Leeuwen's work has already been widely used by critical discourse analysts across the world. This volume will be a welcome guide for anyone looking for a form of discourse analysis that is both explicit and methodical, and critically incisive.

The Presentation of Self in Everyday Life Erving Goffman 2021-09-29 A notable contribution to our understanding of ourselves. This book explores the realm of human behavior in social situations and the way that we appear to others. Dr. Goffman uses the metaphor of theatrical performance as a framework. Each person in everyday social intercourse presents himself and his activity to others, attempts to guide and control the impressions they form of him, and employs certain techniques in order to sustain his performance, just as an actor presents a character to an audience. The discussions of these social techniques offered here are based upon detailed research and observation of social customs in many regions.
