Henry Mancini John Caps 2012-02-15 Henry Mancini, the first publicly successful and personally recognizable film composer in history, has practically become a Hollywood brand name. In his lifetime, he sold thirty million albums and won four Oscars and twenty Grammy awards. Through Mancini, mere background music in movies became part of pop culture--an expression of sophistication and wit with a modern sense of cool and a lasting lyricism that has not dated. The first comprehensive study of Mancini's music, *Henry Mancini: Reinventing Film Music* describes how the composer served as a bridge between the Big Band period of World War II and the impatient eclecticism of the Baby Boomer generation, between the grand formal orchestral film scores of the past and a modern American minimalist approach. Mancini's sound seemed to capture the bright, confident, welcoming voice of the middle class's new efficient life: interested in pop songs and jazz, in movies and television, in outreach politics but also conventional stay-at-home comforts. As John Caps shows, Mancini easily combined it all in his music. Mancini wrote his first dramatic music for a radio series in 1950. By the mid-1960s, he wielded influence in Hollywood and around the world with his iconic scores: dynamic jazz for the noirish detective TV show *Peter Gunn*, the sly theme from *The Pink Panther*, and his wistful folk song "Moon River" from

Breakfast at Tiffany's. Following the evolution of Mancini's style, Caps traces the history of movie scoring in general: from the jazz-pop of the 1960s to the edgier, electro-funk harmonies of the Watergate 1970s, from the revisionist 1980s marked by New Age trends and new jazz chords to the frustrating New Hollywood of the 1990s when films were made by committees of lawyers rather than by artisans. Through insightful close readings of key films, Caps traces Mancini's collaborations with important directors and shows how he homed in on specific dramatic or comic aspects of each film to create musical effects through clever instrumentation, eloquent melodies, and the strong narrative qualities of his scores. Accessible and engaging, this fresh view of Mancini's oeuvre and influence will delight and inform fans of film and popular music.

Middlebrow Modernism Christopher Chowrimootoo 2018-11-06 "At publication date, a free ebook version of this title will be available through Luminos, University of California Press's Open Access publishing program. Visit www.luminosoa.org to learn more. This provocative study is situated at the intersection of the history, historiography, and aesthetics of twentieth-century music. It uses Benjamin Britten's operas to illustrate the ways in which composers, critics, and audiences mediated the 'great divide' between modernism and mass culture. Reviving midcentury discussions of the 'middlebrow,' Christopher Chowrimootoo demonstrates how these works allowed audiences to have their modernist cake and eat it too: to revel in the pleasures of consonance, lyricism, and

theatrical spectacle even while enjoying the prestige that came from rejecting them. By focusing on key moments when reigning aesthetic oppositions and hierarchies threatened to collapse, Middlebrow Modernism offers a powerful model for recovering shades of gray in the previously black-and-white historiographies of twentieth-century music"--Provided by publisher

Juba -- Dance from the Suite in the Bottoms 1995

'Juba' is one of the earliest and possibly best compositions by R. Nathaniel Dett. Majoring in composition and piano at Oberlin, in 1908, Dett was the first black person to earn a Bachelor of Music degree. A few years later he received a masters from Eastman, then honorary Doctorates from both Oberlin and Howard University. Most of Dett's music-writing and music-making was devoted to the music of his people. 'Juba' is the result of a well-schooled composer making effective use of elements of ragtime. A crowd-pleaser. A Federation Festivals 2016-2020 selection.

Investing with Anthony Bolton Jonathan Davis 2006 Who is the most successful investment

manager in Britain? Arguments could rage forever, but no professional would dispute that Anthony Bolton of Fidelity is among the very best. £1,000 invested in his Special Situations fund at its launch in 1979 was worth more than £125,000 twenty seven years later. No other mainstream UK fund manager has put together such a consistently impressive performance over such a long period. The 125-fold increase represents an average compound growth rate of more than 20% per annum, or 7% per annum greater than the FTSE All-Share Index over the same period. This track record of sustained outperformance stands comparison with that of the greatest American investment superstars such as Warren Buffett and Peter Lynch. For many years, until the fund was voluntarily split in 2006, Fidelity Special Situations was easily the largest and most popular fund in the UK. What are the secrets of Anthony Bolton's success? This important book, now fully revised and updated, takes an in-depth look at the way that Bolton goes about his business and analyses in detail the fund's outstanding performance. Anthony Bolton gives his own personal account of the history of the fund, explains why he believes his contrarian stockpicking methods have worked so well for so long and summarises the lessons he has learnt from his long and successful career. This book is required reading for anyone with a personal or professional interest in investment. - Fully revised and updated second edition with 25 pages of new material and graphics. - The only full-length book to analyse in detail the strategies and techniques used by the UK's number one professional investor. - Detailed analysis of the performance of his funds and the lessons that investors can draw from its exceptional track record. - Written jointly by Anthony Bolton and one of the UK's best known financial authors, a leading authority on the fund management business.
