*A Different Sea* Claudio Magris 2011-05-31 Early this century Enrico, a young intellectual, leaves the city of Gorizia with its abundant population and culture, to spend several years living on the Patagonian pampas, alone with his ancient Greek texts, his flocks and, every now and then, a woman. He has been taught by his closest friend, Carlo, a philosopher/poet who commits suicide in his early twenties, to search for an authentic life, free of social falsehoods. But in his search for this unattainable goal, Enrico destroys every chance he has of a normal existence. This is portrait of a world in ferment, a decaying empire shaken by war and revolution, and a life-long search for meaning.

**Timaeus and Critias** Plato 2008-08-28 Timaeus and Critias is a Socratic dialogue in two parts. A response to an account of an ideal state told by Socrates, it begins with Timaeus's theoretical exposition of the cosmos and his story describing the creation of the universe, from its very beginning to the coming of man. Timaeus introduces the idea of a creator God and speculates on the structure and composition of the physical world. Critias, the second part of Plato's dialogue, comprises an account of the rise and fall of Atlantis, an ancient, mighty and prosperous empire ruled by the descendents of Poseidon, which ultimately sank into the sea.

Contributions from leading scholars include Aronson, Davidson, Kagan, Johnson & Johnson, Schmuck, the Sharans, Slavin and Madden, as well as retrospective pieces on the work of Deutsch and Cohen. These chapters detail the historical development of cooperative learning, cooperation versus competition, and cover major approaches including the jigsaw classroom; complex instruction; the learning together model, and several more. Chapters include qualitative, personal, and retrospective accounts, whereby authors outline the research and theory which underpins each approach while highlighting practical strategies for classroom implementation. This text will primarily be of interest to professors, researchers, scholars, and doctoral students with an interest in the theory of learning, educational research, and educational

**The Numinous Legacy** Adair Butchins 2002 Where is God in the universe if anywhere? Why did God make germs? Why should we be so special? Could the universe have been different? This is a book that brings home, in no uncertain fashion, the discrepancy between the universe envisaged by the ancient sages and prophets and that of modern scientific cosmology, where the possibility of divine intervention looks less and less likely. Butchins demonstrates with clarity how the scientific method may be used, despite certain drawbacks, in an attempt to verify objective truth. It describes how the effect of the Copernican Revolution in the seventeenth century has steadily undermined the basic structure of the three great monotheistic religions of our day, Judaism, Christianity, and Islam, especially with respect to their eschatological concepts. The Eastern religions, being less anthropomorphic, are less affected. The theistic argument from design is shown to be powerful enough to have caused disagreement among present-day scientists, in spite of the strictures of Professor Dawkins. In general, the book attempts to make some sense of the structure of the universe in terms of our own consciousness; it behoves the reader to consider the

**Helena Rubinstein** Michèle Fitoussi 2013-03-11 Helena Rubinstein was born into a poor Polish family at the end of the nineteenth century; by the time of her death in 1965 she had built a cosmetic empire that spanned the world. When Rubinstein opened her first salon in Melbourne, her scientific

approach to beauty was an instant sensation. Women just couldn't get enough of her innovative advice on skincare, and her beauty products were constantly sold out. Having conquered Australia, Rubinstein went on to open salons in Europe and America, at a time when women were barely seen in business, let alone running their own multinational companies. Dressed by Chanel and Yves St Laurent, painted by Salvador Dali and Picasso and mingling with Colette and Proust, Helena Rubinstein not only enjoyed unbelievable success, but was also instrumental in empowering and liberating women. Helena Rubinstein was a total original, and her legacy can still be seen today in the methods used to market and manufacture cosmetics. This is her amazing life story.

*Sacred Science* R. A. Schwaller de Lubicz

1982-04-01 R. A. Schwaller de Lubicz

(1887-1961), one of the most important Egyptologists of this century, links the sacred science of the Ancients to its rediscovery in our own time. Sacred Science represents the first major breakthrough in understanding ancient Egypt and identifies Egypt, not Greece, as the cradle of Western thought, theology, and science. *The Jewish Messiah* Arnon Grunberg 2008-01-10 The new novel by the internationally acclaimed author- "a farce of nuclear proportions" (Vanity Fair) Arnon Grunberg is one of the most subtly outrageous provocateurs in world literature. The Jewish Messiah, which chronicles the evolution of one Xavier Radek from malcontent grandson of a former SS officer, to Jewish convert, to co-translator of Hitler's Mein Kampf into Yiddish, to Israeli politician and Israel's most unlikely prime minister, is his most outrageous work yet. Taking on the most well-guarded pieties and taboos of our age, The Jewish Messiah is both a great love story and a grotesque farce that forces a profound reckoning with the limits of human guilt, cruelty, and suffering. It is without question Arnon Grunberg's masterpiece.

**Theoretical Mechanics** Nikolai Guryevich Chetaev 1989

*Snow and Guilt* Giorgio Pressburger 2000 This award-winning collection confirms Giorgio Pressburger as a European master of the short story. Each tale is wondrous in its situation and its telling, but each refined truth it contains is hauntingly familiar in its resonance. In the title story, four rabbis on a trip through the mountains offer marvelous interpretations of the similarities between snow and guilt, just before an avalanche, killing three of them, provides the most concrete interpretation of all for the survivor. In other stories, horrors await a scientist who provokes unrequited passion in a young girl; a wheelchair-bound philosopher rails at cosmic injustice; and a man who saves a kitten from death unwittingly changes his life through a random act of kindness.

Giorgio Pressburger was born in Budapest in 1937 and later settled in Italy. He is now the Director of the Institute of Italian Culture in Hungary. Among his previous books is *The Law of White Spaces*.

**Bretz's Flood** John Soennichsen 2010-06-01 The land between Idaho and the Cascade Mountains is characterized by gullies, coulees, and deserts--in geologic terms, it is a wholly unique place on the earth. Legendary geologist J Harlen Bretz, starting in the 1920s, was the first to explore the

area. Bretz, a former science teacher at Franklin High School in Seattle and then a professor at the University of Washington and later the University of Chicago, eventually formed the theory that the land was scoured in a virtual instant by a massive flood. His original thinking was rewarded with various forms of public and academic humiliation. In the mid-twentieth century, his theory sounded a bit too much like the biblical flood, and the scientific world wanting nothing to do with that sort of idea. (Ironically, Bretz was an avowed atheist, so this was hardly his inspiration.) Bretz's Flood tells the dramatic story of this scientific maverick--how he came to study the region, his radical theory that a huge flood created it, and how the mainstream geologic community campaigned to derail him from pursuing an idea that satellite photos would confirm decades later.

**My Name, a Living Memory** Giorgio Van Straten 2003 SPANNING SIX GENERATIONS and three continents, *My Name, a Living Memory* is a fictionalized saga of author Giorgio van Straten's family from the Napoleonic era through World War II. The story begins in Rotterdam in 1811, when Hartog son of Alexander — father, cucumber salesman, and Dutch Jew — is forced by Napoleonic edict to choose a last name. He chooses Straaten, the Dutch word for "street." The name presages a journey through history that flings Hartog's descendants as far afield as San Francisco, London, Odessa, Sao Paolo, and Tbilisi. They witness the Gold Rush, the Russian Revolution, the Stalinist purges, and, finally, the Holocaust. Some are uprooted by business interests, including the author's grandfather, who lost one of the A's in his surname en route. As the political climate grows increasingly perilous for Jews throughout Europe, several are forced to flee for their lives, and many fail to return from Auschwitz, Sobibor, and Bergen-Belsen. Historical fiction of a very personal sort, van Straten weaves his relatives' stories together, much as an art restorer reconstructs the missing portions of a fresco, guided by the evidence that remains. A gold watch, a few photographs, crumpled documents and letters, family lore; these are the artifacts from which lives are re-created. In the end, the story of van Straten's family can be read as a testament to the rich and varied history and culture of Jews in Europe and the Americas.

*The Channeled Scabland* J. Harlen Bretz 1932

[The Force of Character](#) James Hillman 2012-11-07

In his bestselling *The Soul's Code*, James Hillman restored passion and meaning to the concept of identity, arguing that each of us is born with an

innate character, the "daimon" or "spirit" that calls us to what we are meant to be. Now, in *The Force of Character*, Hillman brings the idea of character full circle, offering a revolutionary new vision of life's most feared and misunderstood chapter: old age. "Aging is no accident," Hillman writes. "It is necessary to the human condition, intended by the soul." We become more characteristic of who we are simply by lasting into later years; the older we become, the more our true natures emerge. Thus the final years have a very important purpose: the fulfillment and confirmation of one's character. Contrary to the current genetic determinism that sees increased longevity as a wasted aberrance created by civilization, *The Force of Character* presents an explosive new thesis: The changes of old age, even the debilitating ones, have purposes and values organized by the psyche. Memory for recent events may falter, offering more place for long-term recollections. A heart condition in later life brings an opportunity to remove blockages from constricted relationships, while changes in sleep patterns allow the old to experience the profound elements of nighttime that we usually overlook. As Hillman says, "Aging makes metaphors of biology." In this empowering and original work, James Hillman resurrects the ancient, widespread, and socially effective idea of the old person as "ancestor," a model for the young, the bearer of a society's cultural memory and traditions. America disregards old people who aren't young-acting and young-looking. We don't realize that "oldness" is an archetypal state of being that can add value and luster to things we treasure, places we revere, and people's character. When we open our imaginations to the idea of the ancestor, aging can free us from convention and transform us into a force of nature, releasing our deepest beliefs for the benefit of society. For all who read it, *The Force of Character* will be a seminal, life-affirming experience.

**Ode to Joy** Shifra Horn 2005 Following a terrorist explosion on a bus in Jerusalem, Yael, a married mother who narrowly escaped the attack, is haunted by the last image she recalls before the horror: a little blonde child waving to her from the window of the bus, and the sound of Beethoven's

Ode to Joy, which was playing on her car radio. Yael's husband, Nachum, seems unable, or unwilling to understand what she has been through, and although her friends and colleagues are sympathetic, they cannot share her pain. Still traumatised, she feels compelled to seek out the blonde child's grieving father, the enigmatic and mysterious Avshalom. Drawn to him through their mutual suffering and fascinated by his unusual background, Yael begins to fall helplessly in love with him. Avshalom too, cannot deny his own feelings, but his belief that the loss of his wife and child is divine punishment for past sins overshadows any glimmer of hope for their future.
