80 Shades Of Women

Norco '80 Peter Houlahan 2019-06-11 5 young men. 32 destroyed police vehicles. 1 spectacular bank robbery. This "cinematic" true crime story transports readers to the scene of one of the most shocking bank heists in U.S. history—a crime that's almost too wild to be real (The New York Times Book Review). Norco '80 tells the story of how five heavily armed young men—led by an apocalyptic born-again Christian—attempted a bank robbery that turned into one of the most violent criminal events in U.S. history, forever changing the face of American law enforcement. Part action thriller and part courtroom drama, this Edgar Award finalist for Best Fact Crime transports the reader back to the Southern California of the 1970s, an era of predatory evangelical gurus, doomsday predictions, megachurches, and soaring crime rates, with the threat of nuclear obliteration looming over it all. In this riveting true story, a group of landscapers transforms into a murderous gang of bank robbers armed to the teeth with military-grade weapons. Their desperate getaway turns the surrounding towns into war zones. And when it's over, three are dead and close to twenty wounded; a police helicopter has been forced down from the sky, and thirty-two police vehicles have been completely demolished by thousands of rounds of ammo. The resulting trial shakes the community to the core,

raising many issues that continue to plague society today: from the epidemic of post-traumatic stress disorder within law enforcement to religious extremism and the militarization of local police forces.

Stars 79-80 Li Xianting 2020-06-15 In the late 1970s, at the close of the Cultural Revolution, a group of young, largely auto-didact artists in China endeavored to create artwork that would depart from present norms and reflect individual ideals. It was a period of hope for the future, full of energy permeating all levels of society. The artists came from a variety of backgrounds and had an even greater variety of artistic training and skill, but their ideas united them around a common goal. The first exhibition organized by the Stars group (Xingxing huahui) is one of the key outdoor shows and one of the most radical unofficial exhibitions following the end of the Cultural Revolution, representing for many scholars the beginnings of a Chinese avant-garde for a post-Mao China. It is a movement toward artistic democracy—a performance even—taking place over the course of three years and bringing an engaged group, with individual ideas, into the heart of the official art establishment. These Stars would set into motion the policies and norms that later generations of contemporary Chinese artists would build upon to expand their minds and artistic vocabularies. In the 40th anniversary of the founding of the Stars, Stars 79-80 collects the most significant writings, images and artworks of the Stars. It captures the youthfulness and vibrant of a new ideological movement that swept through the capital with hurricane force.

[Around the World in 80 Books](#) David Damrosch 2021-11-16 A transporting and illuminating voyage around the globe, through classic and modern literary works that are in conversation with one another and with the world around them *Featured in the Chicago Tribune's Great 2021 Fall Book Preview * One of Smithsonian Magazine's Ten Best Books About Travel of 2021* Inspired by Jules Verne's hero Phileas Fogg, David Damrosch, chair of Harvard University's department of comparative literature and founder of Harvard's Institute for World Literature, set out to counter a pandemic's restrictions on travel by exploring eighty exceptional books from around the globe. Following a literary itinerary from London to Venice, Tehran and points beyond, and via authors from Woolf and Dante to Nobel Prize-winners Orhan Pamuk, Wole Soyinka, Mo Yan, and Olga Tokarczuk, he explores how these works have shaped our idea of the world, and the ways in which the world bleeds into literature. To chart the expansive landscape of world literature today, Damrosch explores how writers live in two very different worlds: the world of their personal experience and the world of books that have enabled great writers to give shape and meaning to their lives. In his literary cartography, Damrosch includes compelling contemporary works as well as perennial classics, hard-bitten crime fiction as well as haunting works of fantasy, and the formative tales that introduce us as children to the world we're entering. Taken together, these eighty titles offer us fresh

perspective on enduring problems, from the social consequences of epidemics to the rising inequality that Thomas More designed Utopia to combat, as well as the patriarchal structures within and against which many of these books' heroines have to struggle—from the work of Murasaki Shikibu a millennium ago to Margaret Atwood today. Around the World in 80 Books is a global invitation to look beyond ourselves and our surroundings, and to see our world and its literature in new ways.

The 80/20 Principle, Expanded and Updated

Richard Koch 1999-10-19 Be more effective with less effort by learning how to identify and leverage the 80/20 principle: that 80 percent of all our results in business and in life stem from a mere 20 percent of our efforts. The 80/20 principle is one of the great secrets of highly effective people and organizations. Did you know, for example, that 20 percent of customers account for 80 percent of revenues? That 20 percent of our time accounts for 80 percent of the work we accomplish? The 80/20 Principle shows how we can achieve much more with much less effort, time, and resources, simply by identifying and focusing our efforts on the 20 percent that really counts. Although the 80/20 principle has long influenced today's business world, author Richard Koch reveals how the principle works and shows how we can use it in a systematic and practical way to vastly increase our effectiveness, and improve our careers and our companies. The unspoken corollary to the 80/20 principle is that little of what we spend our time on actually counts. But by concentrating on those things that do, we can unlock the enormous potential of the magic 20 percent, and transform our effectiveness in our jobs, our careers, our businesses, and our lives.

Around The World In Eighty Days Michael Palin

2010-05-27 'The pace of this kind of travel has not much changed since Fogg set out in 1872. Trains may be a little faster, but there are certainly no high-speed rail links yet across India, China or the USA. Passenger services have practically disappeared from the world's shipping lanes ... Recourse to air travel, even as a convenient means of escape, was not allowed.' Following the route taken by Phileas Fogg 115 years earlier, Michael Palin set out from the Reform Club to circumnavigate the world. The rules were simple, but nothing else about the trip was straightforward... From a tour of Venice on a rubbish barge to ship spotting at the Suez Canal and the bicycle rush hour and snake snacks in China, this is an unparalleled tribute to man's ability to make life difficult for himself.

The Soho Press Book of '80s Short Fiction Dale Peck 2016-06-07 In *The Soho Press Book of '80s Short Fiction*, editor Dale Peck offers readers a fresh take on a seminal period in American history, when Ronald Reagan was president, the Cold War was rushing to its conclusion, and literature was searching for ways to move beyond the postmodern unease of the 1970s. Morally charged by newly politicized notions of identity but fraught with anxiety about a body whose fragility had been freshly emphasized by the AIDS epidemic, the 34 works gathered here are individually vivid, but taken as a body of work, they challenge the prevailing notion of the '80s as a time of aesthetic as well as financial maximalism. Formally inventive yet tightly controlled, they offer a more expansive, inclusive view of the era's literary accomplishments. The anthology blends early stories from writers like Denis Johnson, Jamaica Kincaid, Mary Gaitskill, and Raymond Carver, which have gone on to become part of the American canon, with remarkable and often transgressive work from some of the most celebrated writers of the underground, including Dennis Cooper, Eileen Myles, Lynne Tillman, and Gary Indiana. Peck has also included powerful work by writers such as Gil Cuadros, Essex Hemphill, and Sam D'Allesandro, whose untimely deaths from AIDS ended their

careers almost before they had begun. Almost a third of the stories are out of print and unavailable elsewhere. The Soho Press Book of '80s Short Fiction is a daring reappraisal of a decade that is increasingly central to our culture.

The 80/80 Marriage Nate Klemp PhD 2021-02-09 NAMED ONE OF COSMOPOLITAN'S "15 BEST MARRIAGE BOOKS ALL COUPLES SHOULD READ." An accessible, transformative guide for couples seeking greater love, connection, and intimacy in our modern world Nate and Kaley Klemp were both successful in their careers, consulting for high-powered companies around the world. Their work as mindfulness and leadership experts, however, often fell to the wayside when they came home in the evening, only to end up fighting about fairness in their marriage. They believed in a model where each partner contributed equally and fairness ruled, but, in reality, they were finding that balance near impossible to achieve. From this frustration, they developed the idea of the 80/80 marriage, a new model for balancing career, family, and love. The 80/80 Marriage pushes couples beyond the limited idea of "fairness" toward a new model grounded on radical generosity and shared success, one that calls for each partner to contribute 80 percent to build the strongest possible relationship. Drawing from more than one hundred interviews with couples from all walks of life, stories from business and pop culture, scientific studies, and ancient philosophical insights, husband-and-wife team Nate and Kaley Klemp pinpoint exactly what's not working in modern marriage. Their 80/80 model of marriage provides practical, powerful solutions to transform your relationship and open up space for greater love and connection.
