The Royal Book of Lists Matt Richardson
2001-09-01 If you think you've already heard everything there is to know about the royal family - think again! Even Queen Victoria herself would be amused (not to mention astonished) by the hundreds of revelations to be found within *The Royal Book of Lists*. Covering over a thousand years of royal history, this fascinating book tells the often turbulent story of a nation and an empire through those privileged few who came to embody it. In the process, author Matt Richardson has succeeded in highlighting all the triumphs, tragedies, and of course the scandals that are central to this rich heritage. Balanced, in-depth, frequently irreverent but always compelling, *The Royal Book of Lists* has something to interest everyone. Coming as it does in time for Queen Elizabeth II's Golden Jubilee, the book stands as a timely and accessible introduction to Britain's - and Canada's - royal family.

The Crimean War John Grehan 2014-03-30 The Crimean War was a conflict between the Russian

Empire and an alliance of the French Empire, British Empire, Ottoman Empire and the Kingdom of Sardinia. The war was part of a long-running contest between the major European powers for influence over territories of the declining Ottoman Empire. Most of the conflict took place on the Crimean Peninsula, but there were smaller campaigns in western Anatolia, the Caucasus, the Baltic Sea, the Pacific Ocean and the White Sea. The Crimean War is known for the logistical and tactical errors during the land campaign on both sides (the naval side saw a successful Allied campaign which eliminated most of the ships of the Russian Navy in the Black Sea). Nonetheless, it is sometimes considered to be one of the first modern wars as it introduced technical changes which affected the future course of warfare, including the first tactical use of railways and the electric telegraph. It is also famous for the work of Florence Nightingale and Mary Seacole, who pioneered modern nursing practices while caring for wounded British soldiers. The war also led to the establishment of the Victoria Cross in 1856 (backdated to 1854), the British Army's first universal award for valor. The Crimean War was one of the first wars to be documented extensively in photographs. News correspondence reaching Britain from the Crimea was the first time the public were kept informed of the day-to-day realities of war. This unique collection of images

will prove to be an invaluable resource for historians, students and all those interested in what was one of the most significant periods in British military history. Each picture will tell its own story, and will be fully captioned with historical detail.

Symbol of Courage Max Arthur 2005 The Victoria Cross can only be awarded for most conspicuous bravery, or some daring or pre-eminent act of valour or self-sacrifice or extreme devotion to duty in the presence of the enemy. It has been awarded only 1,354 times since the Crimean War, the majority going to British and Commonwealth troops. *Symbol of Courage* vividly brings the story of the medal to life, giving a narrative history from the Crimean War to the recent war in Afghanistan. It includes many first-hand accounts of individual acts of bravery and describes what happened to the VC holders, some of whom found it was harder wearing the medal than winning it. It also gives a complete listing of every VC holder with details of the action in which they won the medal. Written by acclaimed military historian Max Arthur, this is a fascinating and comprehensive study that will appeal to everyone who is interested in military history. The Victoria Cross is Britain's most famous medal; it has a great emotional appeal and this book is full of stories of remarkable courage. Max

Arthur's last book, *Forgotten Voices of the Great War*, sold over 84,000 copies in paperback for Ebury. The first book for many years to give a complete history of the medal. There are many Commonwealth holders so there should be a market outside the UK.

McGill Medicine Joseph Hanaway 2006-01-19 McGill Medicine is also the story of the doctors and administrators who made all this happen: visionaries such as Principal Sir Arthur Currie and Dr C.F. Martin, who shepherded the concept of full-time faculty through the various approval processes of the school; Dr J.C. Meakins, who became, in 1924, the first full-time professor of medicine; and Dr Wilder Penfield, the founder and first director of the Montreal Neurological Institute, among many others.

The Guards Brigade in the Crimea Michael Springman 2009-06-25 The Guards Brigade consisted of three battalions, the 3rd Grenadier Guards, 1st Coldstream Guards and 1st Scottish Fusilier Guards (as the Scots Guards were then known). The book opens with a resumé of the causes of the War and an analysis of the woeful disorganization of the Army, in contrast to the efficiency of the Royal Navy. The Brigade's performance in the major battles (Alma, Inkerman etc.) is examined. The author describes the Russians' plans, the ground and conditions experienced by the long suffering troops. The roles and abilities of the various commanders, often found wanting, is fascinatingly treated. After the war was over, the return home and parades are described.

Uncommon Valour Granville Allen Mawer 2019-03-30 A military historian presents a provocative study of the Victoria Cross, the heroes it honors, and the ethics of the British honors system. What is the nature of courage? How and when should it be recognized? How has our appreciation of it changed over time? These are among the questions Granville Allen Mawer seeks to answer in this absorbing history of the Victoria Cross, the highest honor awarded to members of the British Armed Forces for valor in the presence of the enemy. Uncommon Valor is both an analytical account of the institution of the Victoria

Cross and a fascinating study of the ethics of rewarding bravery. It explores the origin of the award, the rationale behind individual awards, and the ways in which the institution has evolved over its long history. Historian Granville Allen Mawer compares individual actions that led to a Victoria Cross, analyzing the circumstances in which they took place, the character of the individual concerned, and the shifting criteria for giving awards. This unconventional treatment of the Victoria Cross may be controversial, but it should stimulate a deeper understanding of the history of the medal and of the heroism of those to whom it has been awarded.

British Battles of the Crimean Wars

1854-1856 John Grehan 2014-01-22 The Crimean War was the most destructive armed conflict of the Victorian era. It is remembered for the unreasoning courage of the Charge of the Light Brigade, for the precise volleys of the Thin Red Line and the impossible assaults upon Sevastopol's Redan. It also demonstrated the inefficiency and ineffectiveness of the British military system based on privilege and purchase.??Poor organisation at staff level and weak leadership from the Commander-in-Chief with a lack of appreciation of the conditions the troops would experience in the Crimea resulted in the needless death of thousands of soldiers. The Royal Navy, by comparison, was highly effective and successfully undertook its operations in the Baltic, the Black Sea and the Sea of Azov.??The relative performance of the two branches of Britain's armed forces is reflected in the despatches sent back to the UK by the?respective commanders. The comparative wealth of detail provided by Admirals Napier, Dundas and Lyons contrast sharply with the limited, though frequent, communications from Generals Raglan, Codrington and Simpson.??The despatches of all these commanding officers are presented in this compilation just as they were when first published in the 1850s. They tell of the great battles of the Alma, Balaklava and Inkerman, of the continuing struggle against Sevastopol and the naval operations which cut the Russian communications and ensured an eventual, if costly, victory. They can be read, just as they were when revealed to the general public more than 150 years ago.

The First VCs John Grehan 2016-10-31 Officers led and men followed; all were expected to do their duty without thought of reward. Enlisted men rarely penetrated the officer ranks and promotion owed more to money than merit. Then came the Crimean War. The incompetence and ineffectiveness of the senior officers contrasted sharply with the bravery of the lower ranks. Fuelled by the reports from the first-ever war correspondents which were read by an increasingly literate public, the mumblings of discontent rapidly grew into a national outcry. Questions were asked in Parliament, answers were demanded by the press why were the heroes of the Alma, Inkerman and the Charge of the Light Brigade not being recognised? Something had to be done. That something was the introduction of an award that would be of such prestige it would be sought by all men from the private to the Field Marshal. It would be the highest possible award for valour in the face of the enemy and it bore the name of the Queen for whom the men fought. This is the story of how the first Victoria Crosses were attained in the heat of the most deadly conflict of the nineteenth century. It is also an examination of how the definition of courage, as recognised by the awarding of VCs, evolved, from saving the regimental colours at the Alma to saving a comrade in the No Mans Land before Sevastopol. *The Illustrated London News* 1864

The Victoria Cross in 100 Objects Brian Best 2020-02-19 It was the events of the Crimean War that changed everything. Until that time, those serving in Britain's army or navy had been expected to do their duty without thought of recognition or reward, particularly the men in the lower ranks. Fuelled by reports from the first ever war correspondents, which were read by an increasingly literate public, the mumblings of discontent over how the gallantry and valor of the

ordinary man was recognized rapidly grew into a national outcry. Questions were asked in Parliament, answers were demanded by the press - why were the heroes of the Alma, Inkerman and the Charge of the Light Brigade not being officially acknowledged? Something had to be done. That something was the introduction of an award that would be of such prestige it would be sought by all men from the most junior private to a Field Marshal. It would be the highest possible award for valor in the face of the enemy and it bore the name of the Queen for whom the men fought - The Victoria Cross. Since the VC was instituted in January 1856, it has been awarded 1,358 times to 1,355 individual recipients. Those men were thrown into wars and campaigns around the globe, from the seas and skies around the UK to the deserts of Africa and the sweltering jungles of the Far East. The two world wars saw the most VCs awarded - 628 in the First and 182 in the Second. Only fifteen medals, eleven to members of the British Army, and four to the Australian Army, have been awarded since the Second World War. In this highly-illustrated work, the renowned Victoria Cross historian and author Brian Best examines the introduction and evolution of the VC, along with some of the fascinating individuals and remarkable acts of valor associated with it, through an intriguing collection of 100 objects. *The Victoria Crosses of the Crimean War* James W. Bancroft 2018-05-18 The Crimean War saw the introduction of the Victoria Cross, which was awarded to 111 men. Whilst the history of the Crimean War has been related many times, never before have the stories of those individuals who were awarded the VC been told. In this, the result of four decades of accumulated research, renowned historian James Bancroft describes who the men were, how they gained the Victoria Cross, and what happened to them afterwards. Great attention has been given to checking the correct spelling of the names of people and locations, burial places and new memorials, and dates of awards and promotions. The author has made every effort to contact museums and other establishments to get up-to-date information on the whereabouts of medals and their accessibility. The men recorded here displayed valor and

determination resulting in many deeds of exceptional courage which became a regular occurrence in the illustrious annals of the British Army. Among them are heroes who had the guts to put themselves in mortal danger by picking up live shells that could have exploded and blown them apart at any moment, gallant troopers who took part in a cavalry charge that they knew was doomed before it began and they were about to be cut to pieces, and valiant individuals who had the audacity to sneak into unknown territory to take the conflict into the enemy's back yard and risk capture and ill-treatment. This account of the fascinating lives of these heroes is accompanied with forty-five portraits.
