The Scramble for Africa M. E. Chamberlain
2014-01-14 In 1870 barely one tenth of Africa was under European control. By 1914 only about one tenth - Abyssinia (Ethiopia) and Liberia - was not. This book offers a clear and concise account of the 'scramble' or 'race' for Africa, the period of around 20 years during which European powers carved up the continent with little or no consultation of its inhabitants. In her classic overview, M.E. Chamberlain: Contrasts the Victorian image of Africa with what we now know of African civilisation and history Examines in detail case histories from Egypt to Zimbabwe Argues that the history and background of Africa are as important as European politics and diplomacy in understanding the 'scramble' Considers the historiography of the topic, taking into account Marxist and anti-Marxist, financial, economic, political and strategic theories of European imperialism This indispensable introduction, now in a fully updated third edition, provides the most accessible survey of the 'scramble for Africa' currently available. The new edition includes primary source material unpublished elsewhere, new illustrations and additional pedagogical features. It is the perfect starting point for any study of this period in African history.

King Leopold's Congo and the "Scramble for Africa" Michael A. Rutz 2018-03-01 "King Leopold of Belgium's exploits up the Congo River in the 1880s were central to the European partitioning of the African continent. The Congo Free State, Leopold's private colony, was a unique political construct that opened the door to the savage exploitation of the Congo's natural and human resources by international corporations. The resulting 'red rubber' scandal—which laid bare a fundamental contradiction between the European

propagation of free labor and 'civilization' and colonial governments' acceptance of violence and coercion for productivity's sake—haunted all imperial powers in Africa. Featuring a clever introduction and judicious collection of documents, Michael Rutz's book neatly captures the drama of one king's quest to build an empire in Central Africa—a quest that began in the name of anti-slavery and free trade and ended in the brutal exploitation of human lives. This volume is an excellent starting point for anyone interested in the history of colonial rule in Africa." —Jelmer Vos, University of Glasgow

The Columbia Guide to East African Literature in English Since 1945 Simon Gikandi 2007 The Columbia Guide to East African Literature in English Since 1945 challenges the conventional belief that the English-language literary traditions of East Africa are restricted to the former British colonies of Kenya, Uganda, and Tanzania. Instead, these traditions stretch far into such neighboring countries as Somalia and Ethiopia. Simon Gikandi and Evan Mwangi assemble a truly inclusive list of major writers and trends. They begin with a chronology of key historical events and an overview of the emergence and transformation of literary culture in the region. Then they provide an alphabetical list of major writers and brief descriptions of their concerns and achievements. Some of the writers discussed include the Kenyan novelists Grace Ogot and Ngugi wa Thiong'o, Ugandan poet and essayist Taban Lo Liyong, Ethiopian playwright and poet Tsegaye Gabre-Medhin, Tanzanian novelist and diplomat Peter Palangyo, Ethiopian novelist Berhane Mariam Sahle-Sellassie, and the novelist M. G. Vassanji, who portrays the Indian diaspora in Africa, Europe, and North America. Separate entries within this list describe thematic concerns, such as colonialism, decolonization, the black aesthetic, and the language question; the growth of genres like autobiography and popular literature; important movements like cultural nationalism and feminism; and the impact of major forces such as AIDS/HIV, Christian missions, and urbanization. Comprehensive and richly detailed, this guide offers a fresh perspective on the role of East Africa in the development of African and world literature in English and a new understanding of the historical, cultural, and geopolitical boundaries of the region.

The Ottoman Scramble for Africa Mostafa Minawi 2016-06-15 The Ottoman Scramble for Africa is the first book to tell the story of the Ottoman Empire's expansionist efforts during the age of high imperialism. Following key representatives of the sultan on their travels across Europe, Africa, and Arabia at the close of the nineteenth century, it takes the reader from Istanbul to Berlin, from Benghazi to Lake Chad Basin to the Hijaz, and then back to Istanbul. It turns the spotlight on the Ottoman Empire's expansionist strategies in Africa and its increasingly vulnerable African and Arabian frontiers. Drawing on previously untapped Ottoman archival evidence, Mostafa Minawi examines how the Ottoman participation in the Conference of Berlin and involvement in an aggressive competition for colonial possessions in Africa were part of a self-reimagining of this once powerful global empire. In so doing, Minawi redefines the parameters of agency in late-nineteenth-century colonialism to include the Ottoman Empire and turns the typical framework of a European colonizer and a non-European colonized on its head. Most importantly, Minawi offers a radical revision of nineteenth-century Middle East history by providing a counternarrative to the "Sick Man of Europe" trope, challenging the idea that the Ottomans were passive observers of the great European powers' negotiations over solutions to the so-called Eastern Question.

The Scramble for Africa Robin Brooke-Smith 1987-11-11 The extended plan of the series is designed in response to the changing trends in history examinations at 18 plus, which now demand the study of documentary sources and the testing of historical skills. Each volume, similar in format to the earlier books in the series, concentrates on a particular topic within a

narrower time span. A general introduction to the period in question is followed by eight sections dealing with a major theme. Each section consists of an introduction, a series of documents to illustrate the theme (drawn mainly from primary sources) and sets of questions following groups of documents. The student is thus introduced to a wider range of sources than that to be found in the standard textbook.

Land of Tears Robert Harms 2019-12-03 A prizewinning historian's epic account of the scramble to control equatorial Africa In just three decades at the end of the nineteenth century, the heart of Africa was utterly transformed. Virtually closed to outsiders for centuries, by the early 1900s the rainforest of the Congo River basin was one of the most brutally exploited places on earth. In *Land of Tears*, historian Robert Harms reconstructs the chaotic process by which this happened. Beginning in the 1870s, traders, explorers, and empire builders from Arabia, Europe, and America moved rapidly into the region, where they pioneered a deadly trade in ivory and rubber for Western markets and in enslaved labor for the Indian Ocean rim. Imperial conquest followed close behind. Ranging from remote African villages to European diplomatic meetings to Connecticut piano-key factories, *Land of Tears* reveals how equatorial Africa became fully, fatefully, and tragically enmeshed within our global world.

The New Scramble for Africa Pádraig Carmody 2013-04-26 Once marginalized in the world economy, the past decade has seen Africa emerge as a major global supplier of crucial raw materials like oil, uranium and coltan. With its share of

world trade and investment now rising and the availability of natural resources falling, the continent finds itself at the centre of a battle to gain access to and control of its valuable natural assets. China's role in Africa has loomed particularly large in recent years, but there is now a new scramble taking place involving a wider range of established and emerging economic powers from the EU and US to Japan, Brazil and Russia. This book explores the nature of resource and market competition in Africa and the strategies adopted by the different actors involved - be they world powers or small companies. Focusing on key commodities, the book examines the dynamics of the new scramble and the impact of current investment and competition on people, the environment, and political and economic development on the continent. New theories, particularly the idea of Chinese "flexigemony" are developed to explain how resources and markets are accessed. While resource access is often the primary motive for increased engagement, the continent also offers a growing market for low-priced goods from Asia and Asian-owned companies. Individual chapters explore old and new economic power interests in Africa; oil, minerals, timber, biofuels, food and fisheries; and the nature and impacts of Asian investment in manufacturing and other sectors. The New Scramble for Africa will be essential reading for students of African studies, international relations, and resource politics as well as anyone interested in current affairs.

The Columbia Guide to Central African Literature in English Since 1945 Adrian A. Roscoe 2008
Columbia's guides to postwar African literature paint a unique portrait of the continent's rich and diverse literary traditions. This volume examines the rapid rise and growth of modern literature in the three postcolonial nations of Zimbabwe, Malawi, and Zambia. It tracks the multiple political and economic pressures that have shaped Central African writing since the end of World

War II and reveals its authors' heroic efforts to keep their literary traditions alive in the face of extreme poverty and AIDS. Adrian Roscoe begins with a list of key political events. Since writers were composing within both colonial and postcolonial contexts, he pays particular attention to the nature of British colonialism, especially theories regarding its provenance and motivation. Roscoe discusses such historical figures as David Livingstone, Cecil Rhodes, and Sir Harry Johnston, as well as modern power players, including Robert Mugabe, Kenneth Kaunda, and Kamuzu Banda. He also addresses efforts to create a literary-historical record from an African perspective, an account that challenges white historiographies in which the colonized was neither agent nor informer. A comprehensive alphabetical guide profiles both established and emerging authors and further illustrates issues raised in the introduction. Roscoe then concludes with a detailed bibliography recommending additional reading and sources. At the close of World War II the people of Central Africa found themselves mired in imperial fatigue and broken promises of freedom. This fueled a desire for liberation and a major surge in literary production, and in this illuminating guide Roscoe details the campaigns for social justice and political integrity, for education and economic empowerment, and for gender equity, participatory democracy, rural development, and environmental care that characterized this exciting period of development.

The Scramble For Africa Thomas Pakenham 2015-09-24 In 1880 the continent of Africa was largely unexplored by Europeans. Less than thirty years later, only Liberia and Ethiopia remained unconquered by them. The rest - 10 million square miles with 110 million bewildered new subjects - had been carved up by five European powers (and one extraordinary individual) in the name of Commerce, Christianity, 'Civilization' and Conquest. The Scramble for Africa is the first full-scale study of that extraordinary episode in history.

The Acquisition of Africa (1870-1914) Mieke van der Linden 2016-10-13 In the 'Scramble for Africa' during the Age of New Imperialism (1870-1914), European States and non-State actors mainly used treaties to acquire territory. The question is raised whether Europeans did or did not on a systematic scale breach these treaties in their expansion of empire.

The Kingdon Field Guide to African Mammals Jonathan Kingdon 2015-04-23 Jonathan Kingdon, one of the world's foremost authorities on African mammals, has both written and illustrated this landmark field guide. The unique combination of his extensive field experience and artistic talent has produced a stunning work that sets new standards. The concise text provides full information on identification, distribution, ecology, relationships and conservation status, with introductory profiles that summarise the characteristics of each mammal group. All known species of African land mammal are covered, with coverage of several of the more complex groups of small mammals simplified by reference to genera. Classification has been fully updated and this new edition includes many newly recognised species. With over 780 colour illustrations, numerous line

drawings and more than 520 maps, this book will be an essential companion to anyone visiting Africa or with an interest in the mammals of the continent. Competition note: There are regional mammal books covering southern Africa, for example, but none that covers the whole continent in a portable format. The smaller-format and more concise Kingdon Pocket Guide to African Mammals may be more appealing to a more general safari market, but is much less comprehensive and more out of date.

The Betrayal of Africa Gerald L. Caplan 2008 Argues that it is the policies of rich Western nations that are responsible for many of Africa's problems, discussing such issues as the large gap between rich and poor, women's rights, health, and education, and advocates change.

The Scramble for Europe Stephen Smith 2019-06-04 From the harrowing situation of migrants trying to cross the Mediterranean in rubber dinghies to the crisis on the US-Mexico border, mass migration is one of the most urgent issues facing our societies today. At the same time, viable solutions seem ever more remote, with the increasing polarization of public attitudes and political positions. In this book, Stephen Smith focuses on 'young Africa' - 40 per cent of its

population are under fifteen - and a dramatic demographic shift. Today, 510 million people live inside EU borders, and 1.25 billion people in Africa. In 2050, 450 million Europeans will face 2.5 billion Africans - five times their number. The demographics are implacable. The scramble for Europe will become as inexorable as the 'scramble for Africa' was at the end of the nineteenth century, when 275 million people lived north and only 100 million lived south of the Mediterranean. Then it was all about raw materials and national pride, now it is about young Africans seeking a better life on the Old Continent, the island of prosperity within their reach. If Africa's migratory patterns follow the historic precedents set by other less developed parts of the world, in thirty years a quarter of Europe's population will be Afro-Europeans. Addressing the question of how Europe can cope with an influx of this magnitude, Smith argues for a path between the two extremes of today's debate. He advocates migratory policies of 'good neighbourhood' equidistant from guilt-ridden self-denial and nativist egoism. This sobering analysis of the migration challenges we now face will be essential reading for anyone concerned with the great social and political questions of our time.

Italian National Identity in the Scramble for Africa Giuseppe Maria Finaldi 2009 Italy's First African War (1880-1896) pitted a young and ambitious European nation against the ancient Empire of Ethiopia. The Least of Europe's Great Powers rashly assailed Africa's most formidable military power. The outcome was humiliating defeat for Italy and the survival, uniquely for any African nation in the years of the European Scramble for that continent, of Ethiopian independence. Notwithstanding Italy's disastrous first experience in the colonial fray, this book argues that the impact of the war went well beyond the battlefields of the Ethiopian highlands and reached into the minds of the Italian people at home. Through a detailed and exhaustive study of Italian popular culture, this book asks how far the First African War impacted on the Italian nation-building project and how far Italians were themselves changed by undergoing the experience of war and defeat in East Africa. Finaldi argues, for the first time in historiography on the subject, that there was substantial support for and awareness of Italy's military campaign and that 'Empire', as has come to be regarded as fundamental in the histories of other European countries, needs to be brought firmly into the mainstream of Italian national history. This book is an essential contribution to debates on the

relationship between European national identity

and culture and imperialism in the late 19th century.
